

Center for Corporate Engagement

The center is designed to engage regional companies, organizations, and individuals through high-impact programs and services to enhance outcomes while contributing to the mission of ONU in a significant way.

THE CCE PROVIDES:

- Comprehensive and flexible professional development and continuing education programs that address the needs of the changing workforce;
- Customized certificates designed for specific industries;
- Private programs designed for specific companies;
- Continuing education programs including CEs, CPDs and CLE;
- Coaching and consulting for today's business challenges;
- Networking and other relationship cultivation opportunities for internships, capstones and/or shared research;
- Corporate leadership speakers for regional symposiums;
- Experiential learning opportunities.

CUSTOM PROGRAMS

These highly flexible, engaging, in-person programs are designed to meet the specific development goals for your employees, culture, and delivery format. We build on your knowledge of the gaps and desired outcomes for the audience in which you are investing. You will have the opportunity to meet the facilitator and share directly with them your needs and ideas.

OPEN ENROLLMENT

The CCE hosts in-person programs in the fall and spring at ONU with a calendar created based on the needs of companies in the region. These programs provide opportunities for participants to engage and learn along with others from a variety of industries and different size organizations. The facilitators are experts in the subject and are skilled at creating an engaging learning environment to provide real world skills and tools.
