

Abilities of Northwest Jersey, Inc is excited to share news about the opening of our **new residential community, the Village at Hawk Pointe in Washington, NJ, set for March 2025.**

This state-of-the-art facility, along with our existing programs offers a wide range of person-centered services tailored to individuals with developmental disabilities. This state-of-the-art residential program will feature a wide variety of supports provided both in the home and the community. Individuals residing in the apartments will be supported day and night by Abilities staff members, with a focus on increasing independence based on individual needs. As part of our commitment to excellent service, two of the four apartments will include medical support, promoting inclusion for everyone in our community. Our programs are dedicated to fostering independence, enhancing quality of life, and promoting meaningful community integration.

Abilities Residential Services launching 2025

- **Group Homes:** Each apartment at the Village at Hawk Pointe serves as a group home with four bedrooms and three baths, covering 1,900 square feet. Designed for comfort and security, each unit is equipped with backup generators, the latest safety technology, smart technology and features an open layout with durable tiled flooring for ease of movement and a welcoming environment.
- **Medical Group Home:** Two of our apartments are designed specifically for individuals with extensive medical needs, featuring overhead Hoyer lift tracking and on-site nursing oversight. Residents benefit from 24-hour staffing by a dedicated team that provides support with social, behavioral, and daily living skills, ensuring a supportive and engaging environment for growth and well-being.
- The Village offers a welcoming and supportive environment. Situated at 366 Route 31 South, the Village at Hawk Pointe boasts a prime location surrounded by beautiful homes, a golf course, recreational facilities, grocery stores, restaurants, banking services, pharmacies, and medical support facilities. It's 14 miles to the Phillipsburg and Hackettstown day programs and less than 2 miles from the Washington day programs. Our residents will have access to a multitude of recreational activities. Additionally, our residents will have access to transportation services provided by Abilities with specialized lift-equipped vehicles, ensuring convenient access to services in the community.

We are actively filling vacancies and are looking for residents who would thrive with our comprehensive support services. If you know of an individual requiring medical supports who might be a good fit, please feel free to reach out to me directly. We're eager to welcome new residents and provide them with the highest quality of care. We look forward to partnering with you to support those who could benefit from our services.
