

Alternatives, Inc. currently has openings in several of our community-based residential programs located throughout Warren, Somerset, and Ocean Counties.

For more than four decades, Alternatives has supported adults with intellectual and developmental disabilities—including individuals with complex support needs—in leading meaningful, fulfilling lives. Our person-centered approach emphasizes individualized supports, community inclusion, skill development, and opportunities to build lasting relationships.

Whether an individual is seeking greater independence, specialized support, or a welcoming place to call home, we encourage families, support coordinators, and referral partners to explore our available residential opportunities at [Social Services for People with Intellectual Disabilities | Alternatives Inc](#)

To learn more about our vacancies, and to determine the best fit for the individuals you support, please contact Carolyn Suero, Vice President of Admissions and Development, at csuero@alternativesinc.org.
