Widespread reporting on aspects of white supremacy — from police brutality to the mass incarceration of Black Americans — has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair — and how do you make it right? How do you explain white privilege to your white, privileged friend?

In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to “model minorities” in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life.
