CLC YOUTH MANIFIESTO

IgnatiuSoo

Moved by the experience of the wound of Ignatius of Loyola, we young people recognise that our wounds and those of the world are an essential starting point for personal and social transformation.

1

EMBRACE THE WORLD
in an ignatian way
CLC
YOUTH
MANIFIESTO
IgnatiuSoo
We offer ourselves to collaborate in building a Church that is more open and closer to all people, especially those who suffer most.
2

EMBRACE THE WORLD
in an ignatian way
CLC
YOUTH
MANIFIESTO
IgnatiuSoo
We want to offer space in our lives to encounter those who are poorest, whether materially, psychologically or spiritually.
3

CLC YOUTH MANIFIESTO

IgnatiuSoo

We offer our desire to work to restore the dignity of the individual, walking with all as our equals, and placing integral human development as a place of reconciliation.

4

CLC YOUTH MANIFIESTO

IgnatiuSoo

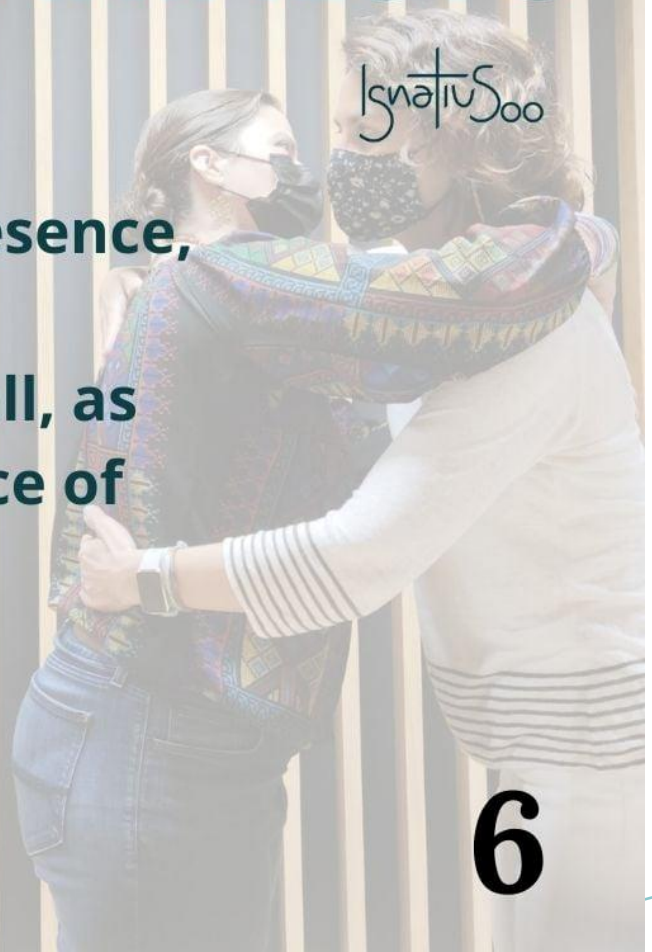

We want to welcome plurality as a source of richness by building bridges of encounter and dialogue between the full diversity of cultures and people, beyond all frontiers.

5

CLC YOUTH MANIFIESTO

IgnatiuSoo

We want to offer presence, care, listening and accompaniment to all, as part of God's embrace of the world.

6

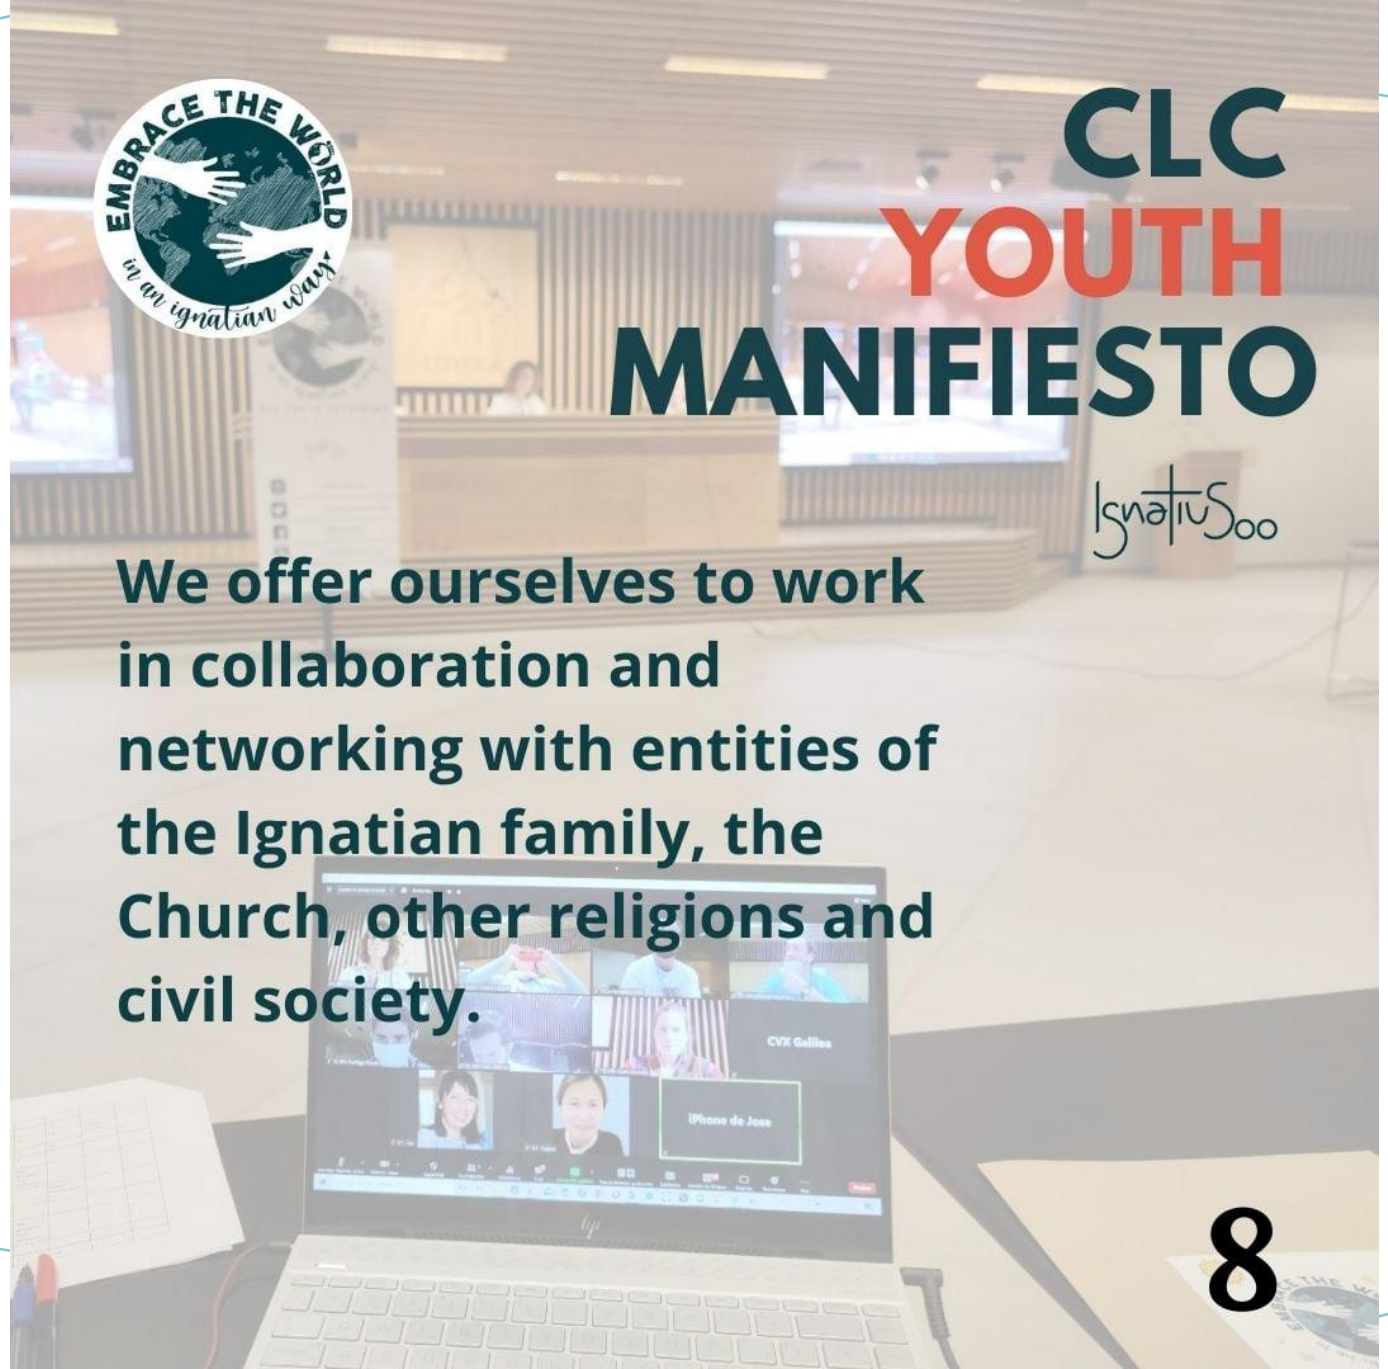

CLC YOUTH MANIFIESTO

IgnatiuSoo

Welcoming Pope Francis' call in Christus Vivit, we want to be active builders of intergenerational dialogue and be open to share our spirituality with people from all walks of life.

7

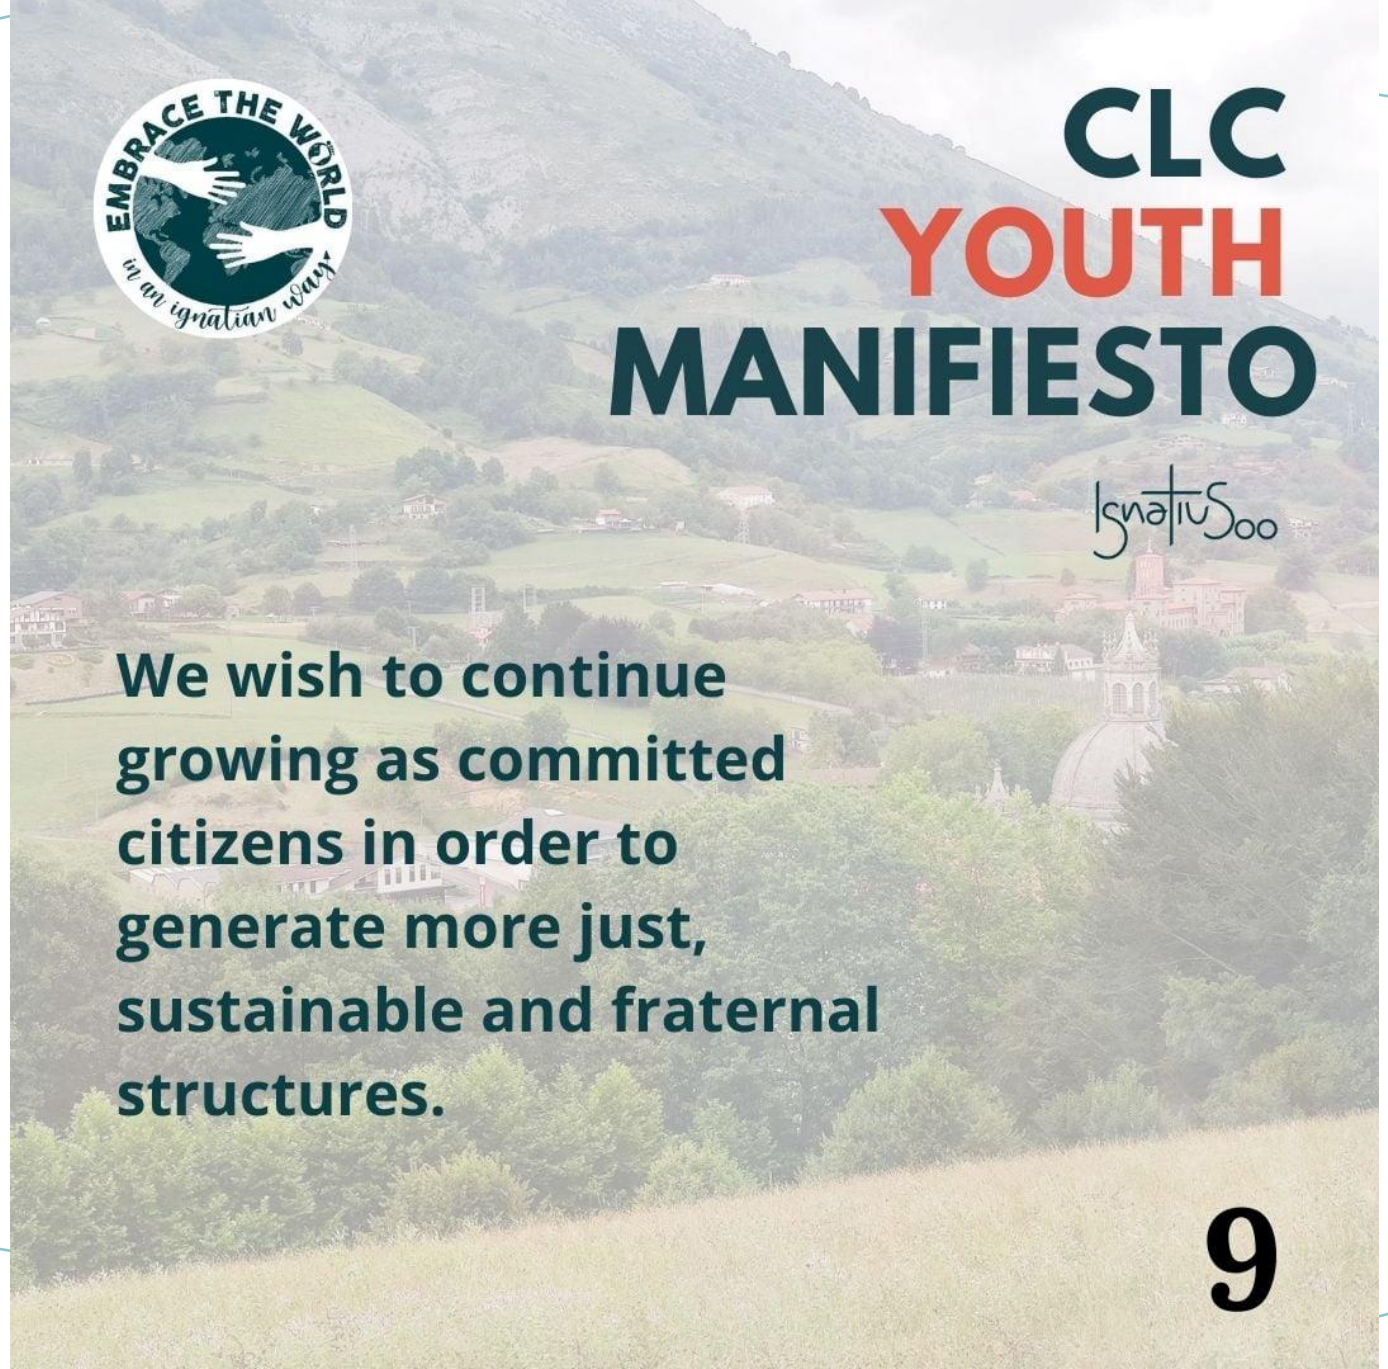

CLC YOUTH MANIFIESTO

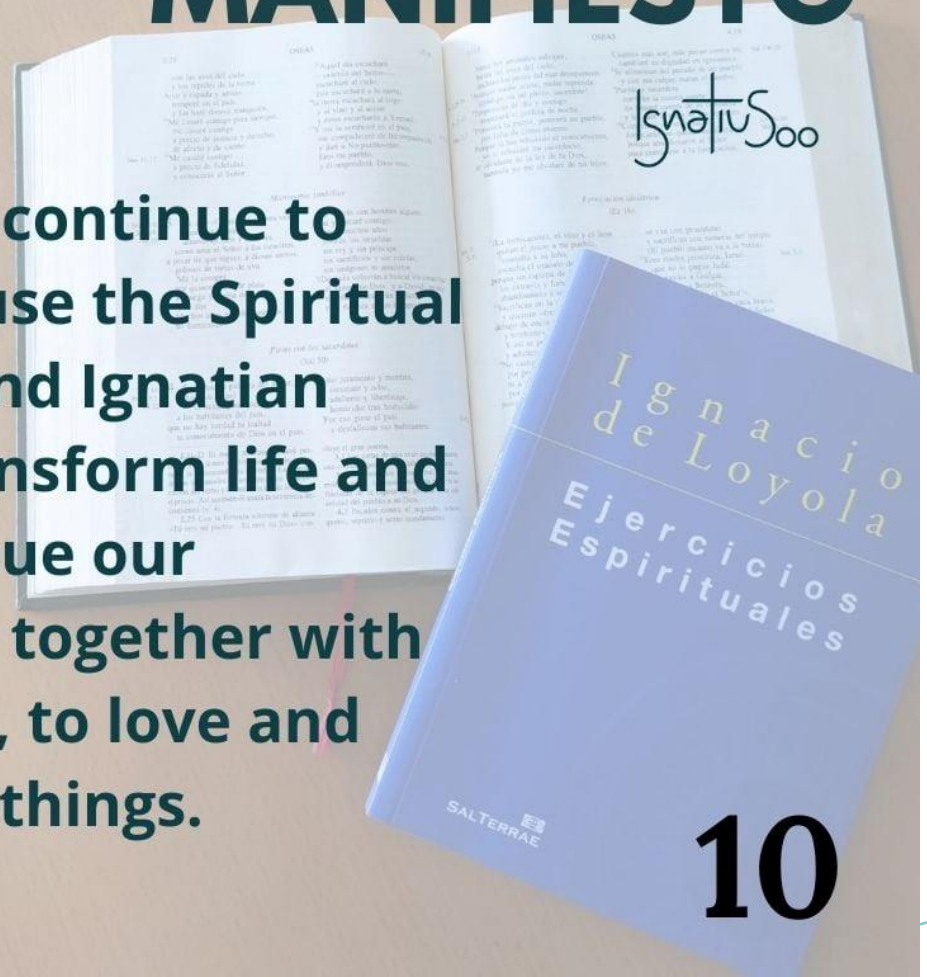

IgnatiuSoo

We offer ourselves to work in collaboration and networking with entities of the Ignatian family, the Church, other religions and civil society.

8

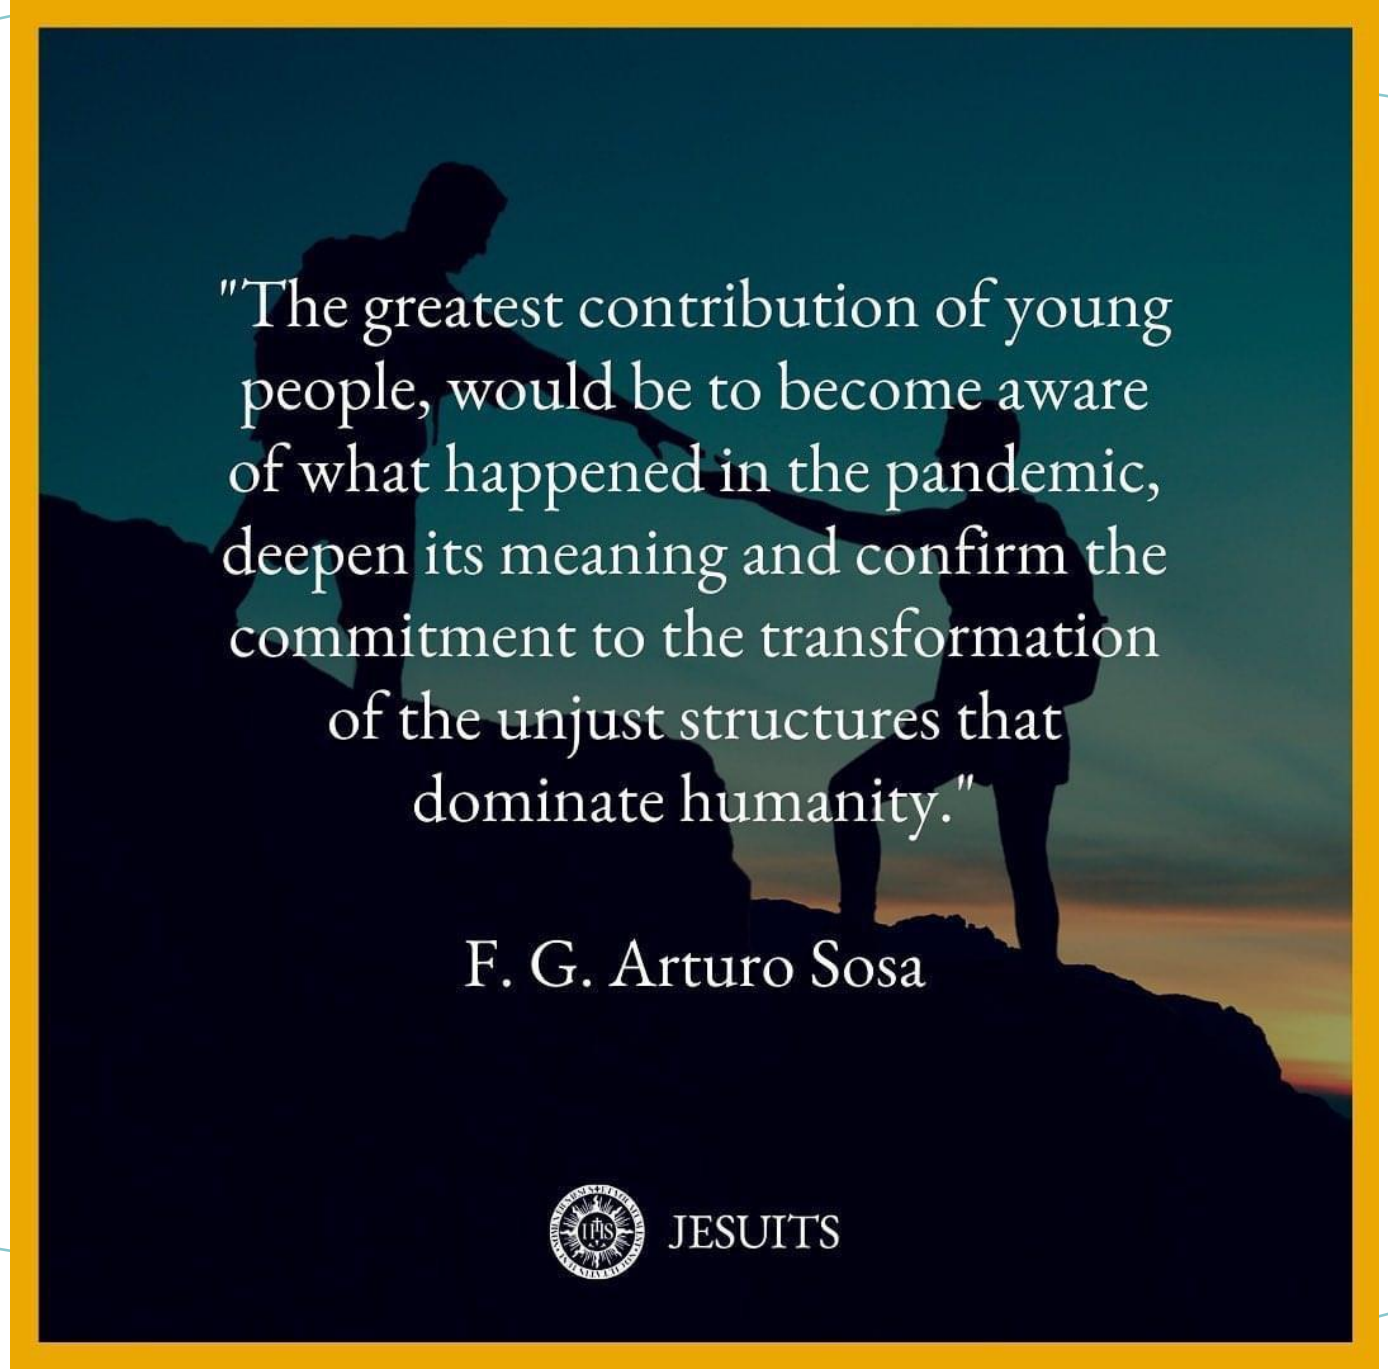

EMBRACE THE WORLD
in an ignatian way
CLC
YOUTH
MANIFIESTO
IgnatiuSoo
We wish to continue growing as committed citizens in order to generate more just, sustainable and fraternal structures.
9

CLC YOUTH MANIFIESTO

We wish to continue to creatively use the Spiritual Exercises and Ignatian tools to transform life and thus continue our pilgrimage, together with St. Ignatius, to love and serve in all things.

10

"The greatest contribution of young people, would be to become aware of what happened in the pandemic, deepen its meaning and confirm the commitment to the transformation of the unjust structures that dominate humanity."
