

## Credit Analysis Competition

### SPONSORSHIP OPPORTUNITY

On behalf of the Minnesota Chapter of the Risk Management Association, we would like to let your firm know about our Student Credit Analysis Competition that will take place on Saturday, March 7, 2026 (9am - 1pm) at Sunrise Banks Headquarters in St. Paul.

The competition will consist of colleges or universities who will be presented with a credit scenario that simulates an existing small to mid-size business. With the help of an assigned mentor, teams will propose an overall credit solution for that business to a loan committee.

The intention of this competition is to bring exposure to the banking industry, in particular community and commercial banking to students, as well as opening a door for future career opportunities. There will be cash awards/stipends for each of the teams that participate (ranging from \$500 - \$1,500 per team) to compensate for their time, as well as covering the cost of travel to and from the event in St. Paul.

The desired audience of participants would consist of students in Economics, Finance, Financial Management, and similar disciplines that are in their Sophomore and Junior years. This competition would also serve as a pseudo career fair, where representatives of sponsoring firms can attend the event and network with the student competitors.

### This is where your firm comes in!

We are looking for sponsoring companies to help get this initiative started. The request is for a \$500 annual commitment over 3 years (\$1,500 total) to help cover the previously noted cash awards and other expenses.

#### Sponsorship Benefits:

- With a 3-year commitment, your company logo and link will be included on all promotion materials as well as on the [RMA MN Chapter website](#).
- An opportunity to participate in facilitating mentoring and competition judging.
- Opportunity to participate in a Career Fair to network with participating students.

**If your firm is interested in sponsoring the next generation of banking leaders,  
Please contact one of the below committee members for additional information.**
