

NOTICE

TRASH PICKUP

Businesses - To avoid fines:

- Please review the windows of time in which you are allowed to put out trash for pick up by your private carter. Putting trash out before or after this time will result in tickets.
- On designated pick-up days place your bags at the curb, in front of your business and away from residential trash.
- Properly mark your bags with your business name. Ask your private carter for stickers to mark your bags for easy identification of your bags. This will ensure that you are not paying for the carter to pick up trash that is not yours.
- Remember - while the Jamaica Center BID sweeps the sidewalks, YOU are also responsible for sweeping the sidewalk and are subject to sanitation fines if you don't. Our BID services are supplemental, designed to help, but not replace personal responsibility. The City holds businesses responsible for ensuring the sidewalk in front of your business is clean.
