About the Artist:

Liz Hill started her serious art training at the Los Angeles Art Center School at the age of 17, studying advertising design and illustration. She later attended the University of Houston for fine art. She feels her commercial training as well as her fine art work prepared her well to pursue whatever her creativity led her to do.

She started as many with oil painting, but once she started working with water media she was hooked. The addition of collage only further excited her.

She has drawn at model sessions for years and extended her collage work to landscapes and collaged water birds with paper. She also has worked with Asian papers. She enjoys creating rich surfaces which give the feeling of the texture produced in her artwork and drawing you into her world.
