

Innovation Awards

**ACDS would like to invite Members to
participate in the annual Innovation Awards**

**To be awarded at the
2017 ACDS Spring Conference**

In our field's shifting climate of priorities, do you or your organization have a dynamic and emergent way of coming up with solutions that are so effective that they would benefit others?

This could include policies, practices, initiatives, technology, or outcomes

It could be something as specific as direct service delivery

Or something as broad as community capacity development

If you answered YES, or would like to nominate someone, then please visit the link below to download the nomination form and submit it to ACDS (acds@acds.ca) by February 28, 2017.

Feel welcome to nominate yourself, your organization, or anyone you know within Community Disability Services.

Or, you could just suggest someone you feel worthy of being nominated.
