

2025/26 Winter Propane Market Update

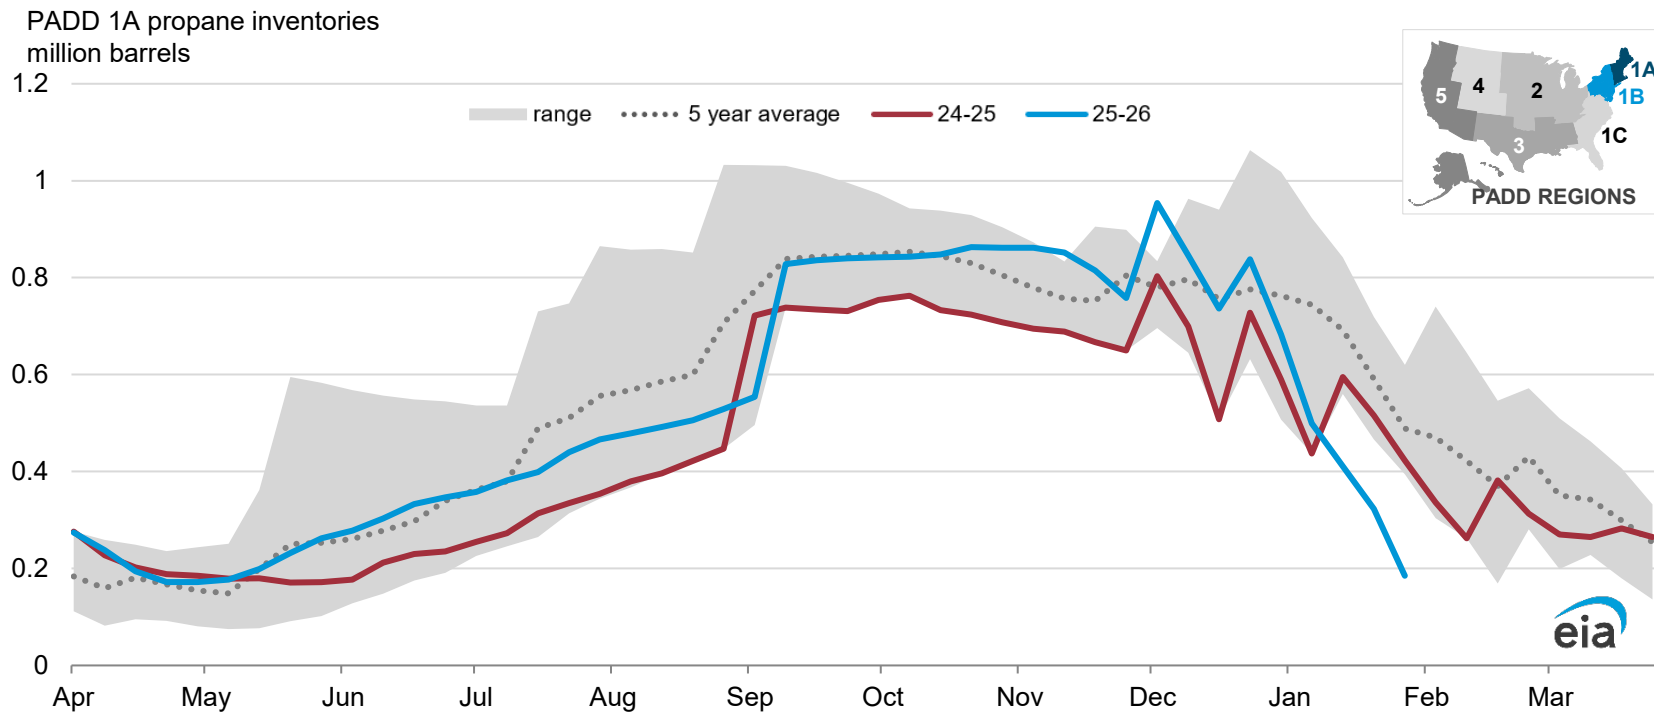

February 4, 2026 | Washington, DC

(Inventory data as of 1/30/26; residential heating fuel prices as of 2/2/26)

By

U.S. Energy Information Administration

PADD 1A (New England) propane inventories below the 5-year range

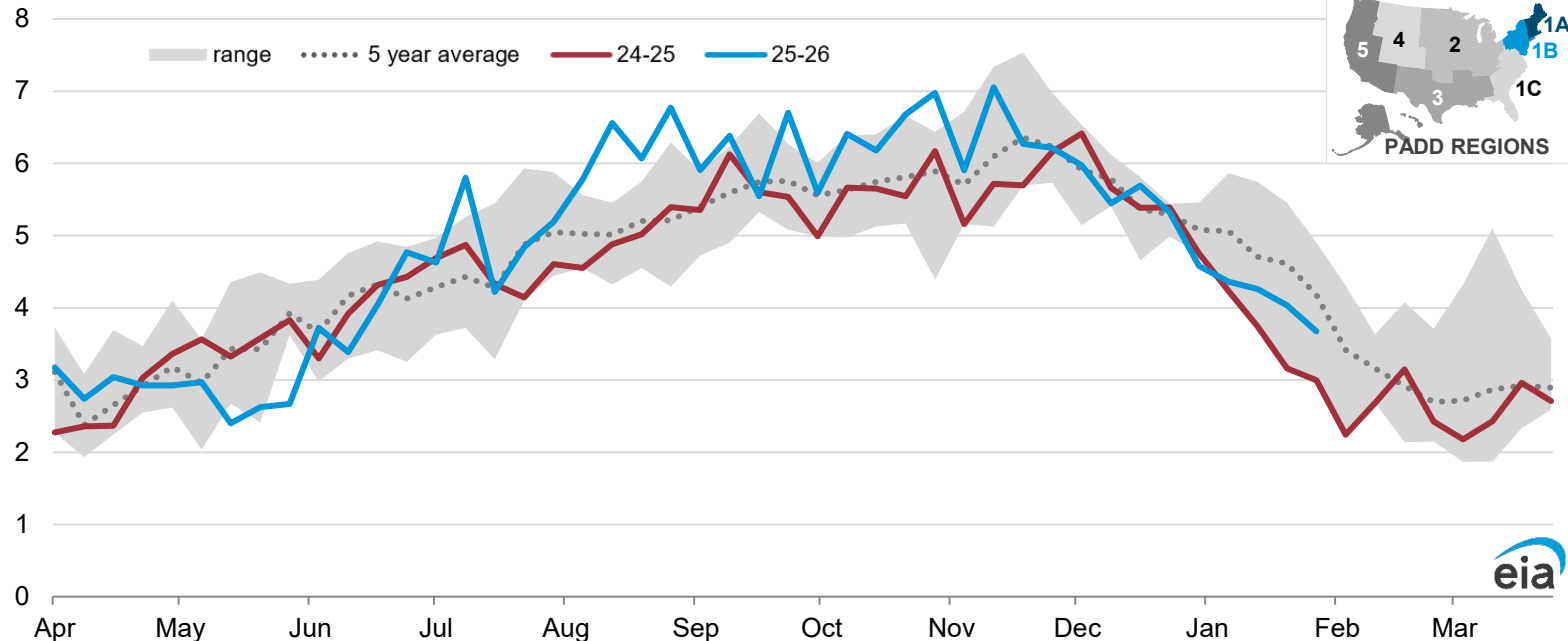

Data source: EIA, *Weekly Petroleum Status Report*, February 4, 2026. Data through January 30, 2026.

Note: PADD 1A is composed of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.

PADD 1B (Mid-Atlantic) propane inventories below the 5-year average

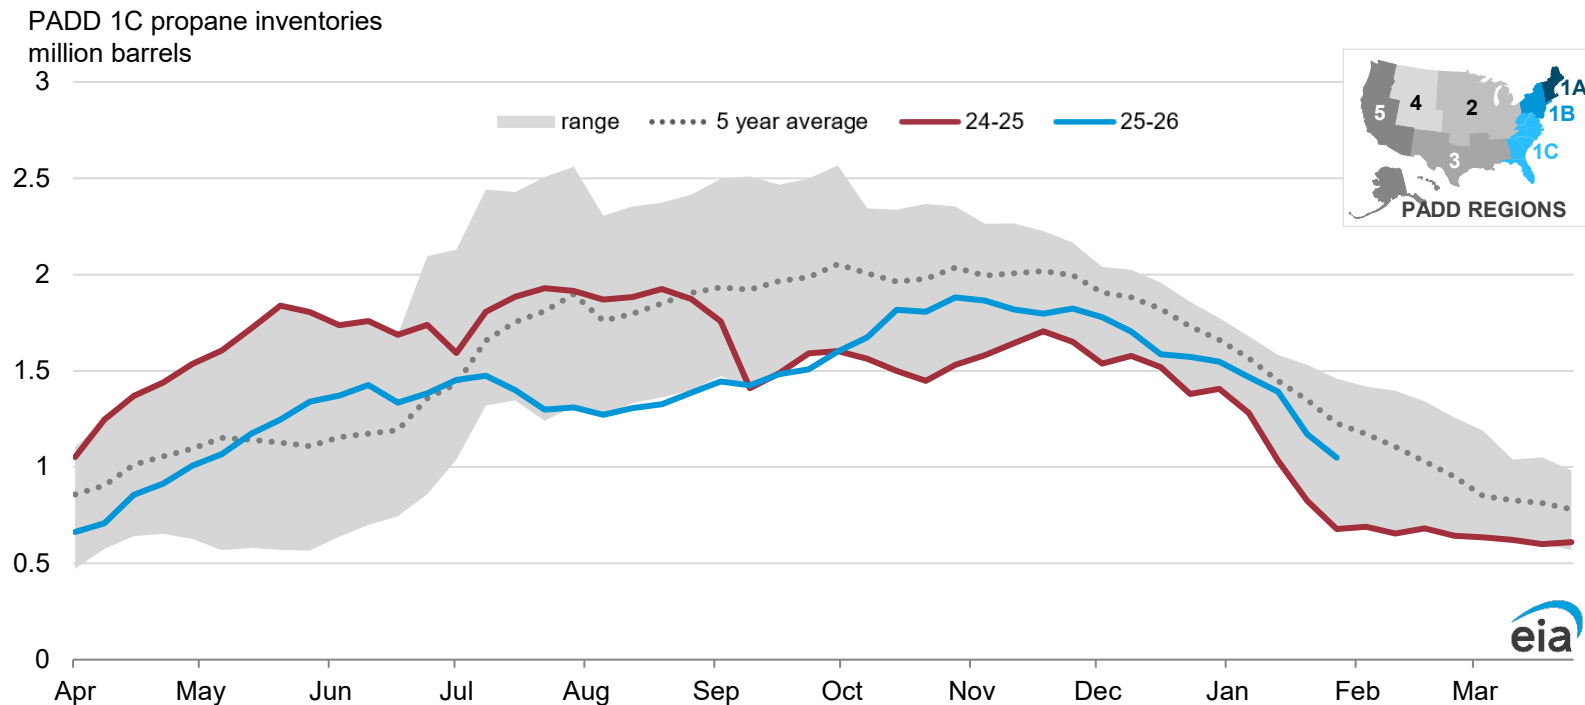

PADD 1B propane inventories
million barrels

Data source: EIA, *Weekly Petroleum Status Report*, February 4, 2026. Data through January 30, 2026.

Note: PADD 1B is composed of Delaware, District of Columbia, Maryland, New Jersey, New York, and Pennsylvania.

PADD 1C (Lower Atlantic) propane inventories below 5-year average

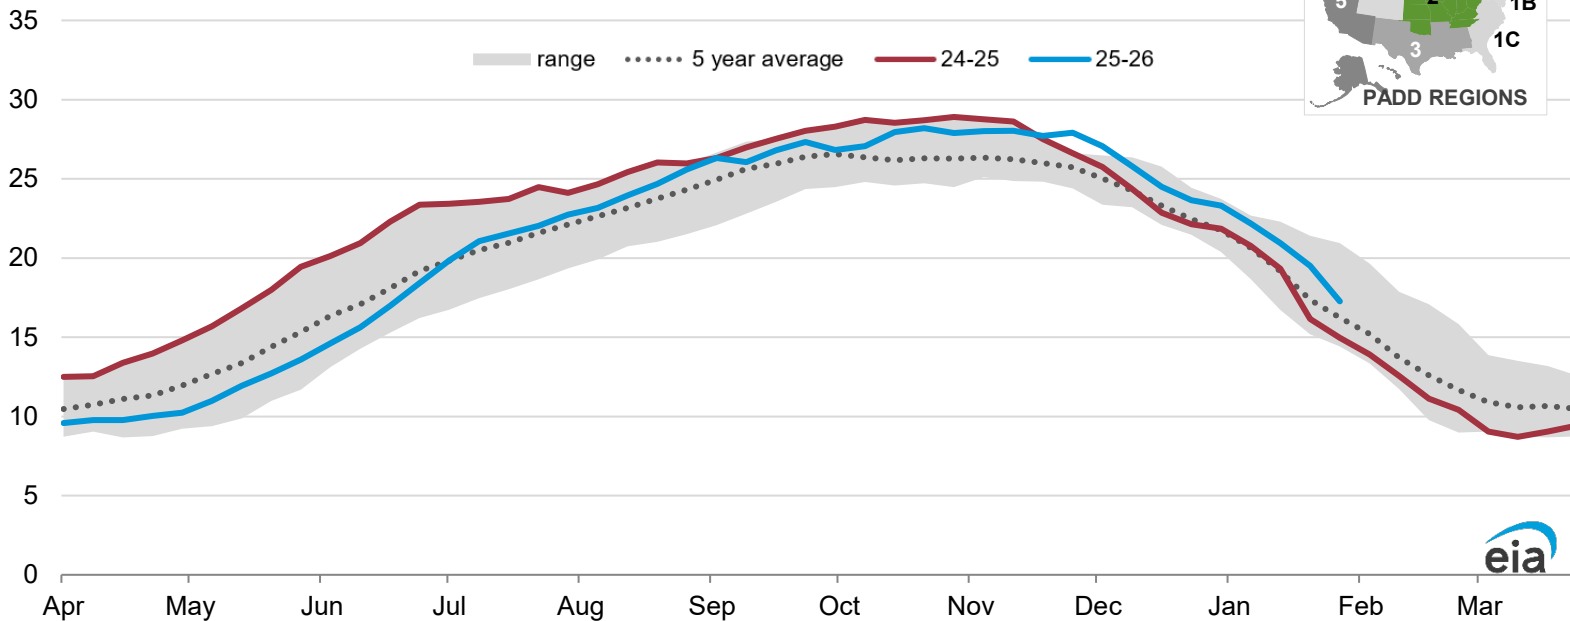

Data source: EIA, *Weekly Petroleum Status Report*, February 4, 2026. Data through January 30, 2026.

Note: PADD 1C is composed of Florida, Georgia, North Carolina, South Carolina, Virginia, and West Virginia

PADD 2 (Midwest) propane inventories above the 5-year average

PADD 2 propane inventories
million barrels

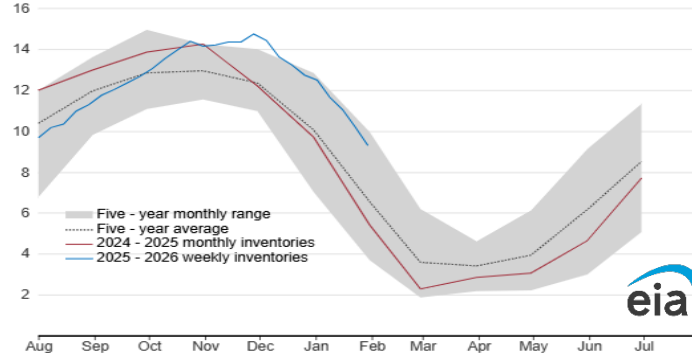

Data source: EIA, *Weekly Petroleum Status Report*, February 4, 2026. Data through January 30, 2026.

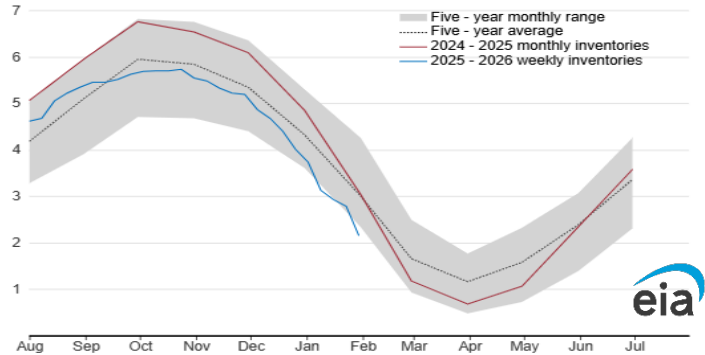

PADD 2 is composed of Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, and Wisconsin.

Selected state propane* inventories

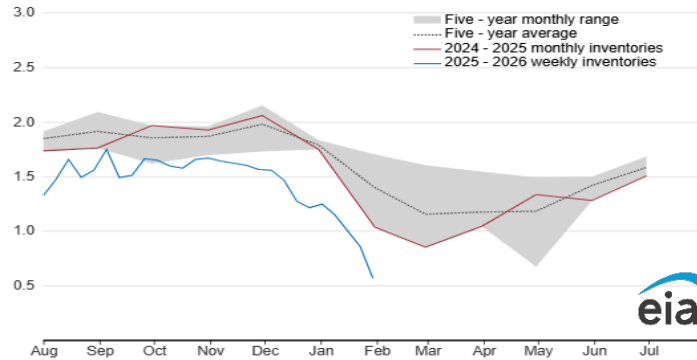

Kansas propane/propylene stock at refineries, terminals, and natural gas plants (not pipelines)
million barrels

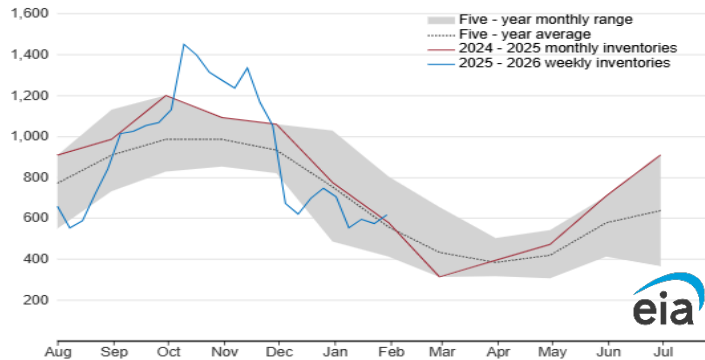

Michigan propane/propylene stock at refineries, terminals, and natural gas plants (not pipelines)
million barrels

Illinois, Indiana, Ohio propane/propylene stock at refineries, terminals, and natural gas plants (not pipelines)
million barrels

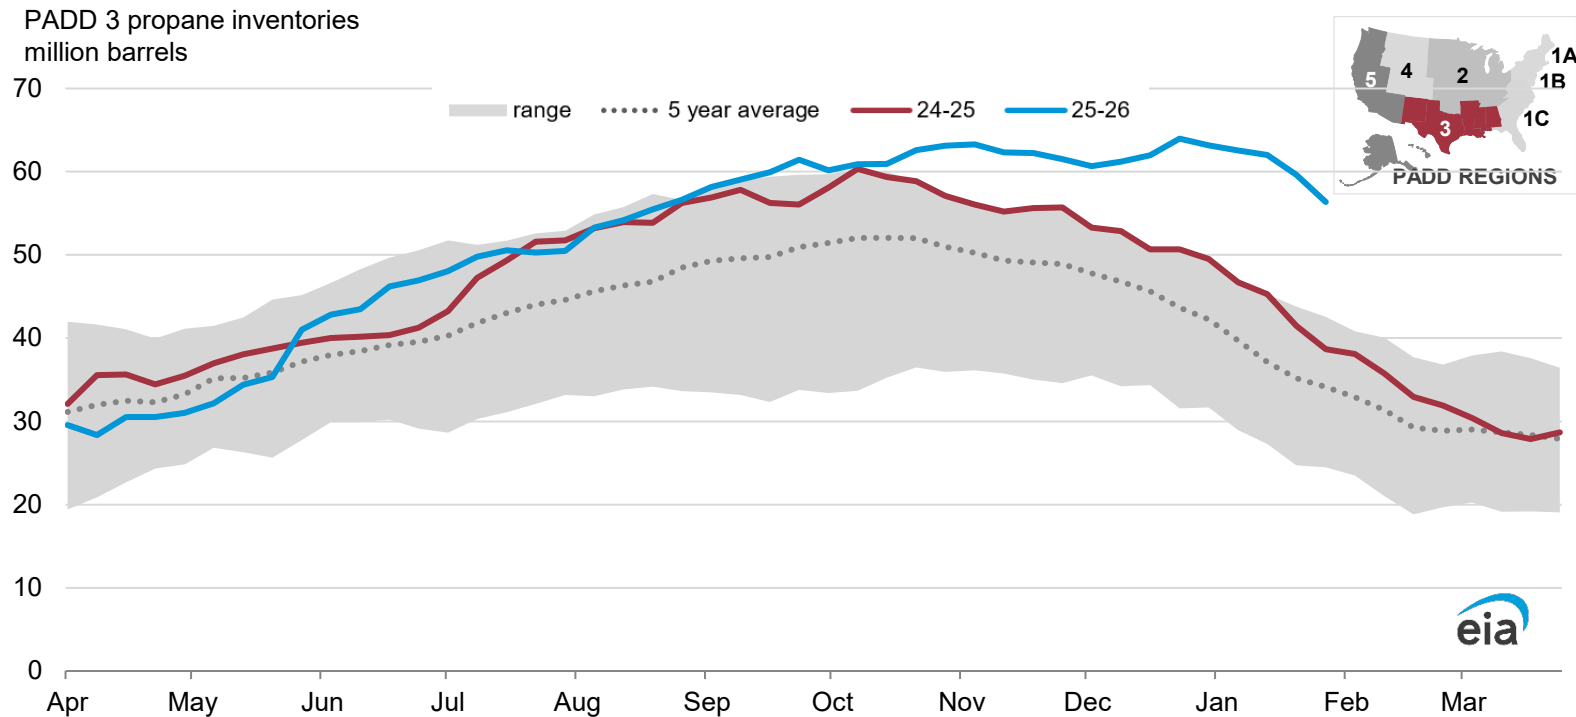

Iowa, Minnesota, Wisconsin propane/propylene stock at refineries, terminals, and natural gas plants (not pipelines)
thousand barrels

Data Source: EIA, *Weekly Petroleum Status Report*, data through January 30, 2026

*propane/propylene for fuel use only

PADD 3 (Gulf Coast) propane inventories above the five-year range

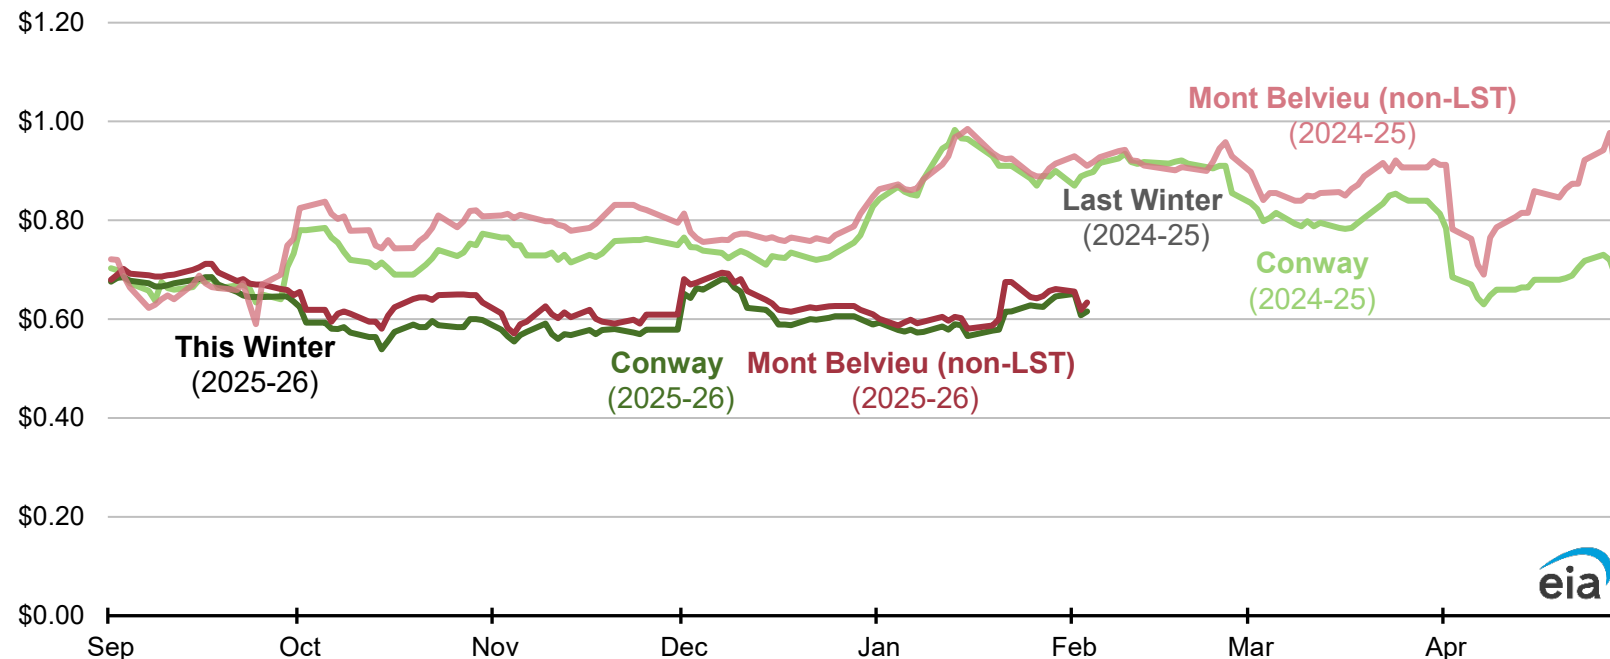

Data source: EIA, *Weekly Petroleum Status Report*, February 4, 2026. Data through January 30, 2026.

Note: PADD 3 is composed of Alabama, Arkansas, Louisiana, Mississippi, New Mexico, and Texas.

Wholesale propane spot prices at Mt. Belvieu, Texas are at ~2¢/gal premium to Conway, Kansas.

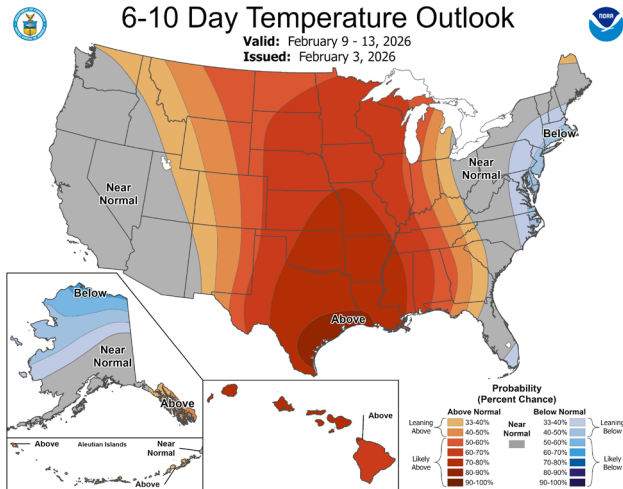

Propane spot prices (Conway, KS and Mont Belvieu, TX)
dollars per gallon

Data source: Bloomberg L.P., data through February 3, 2026

NOAA's projected temperatures:

February 9, 2026 – Feb. 13, 2026, and Feb. 11, 2026 – Feb. 17, 2026

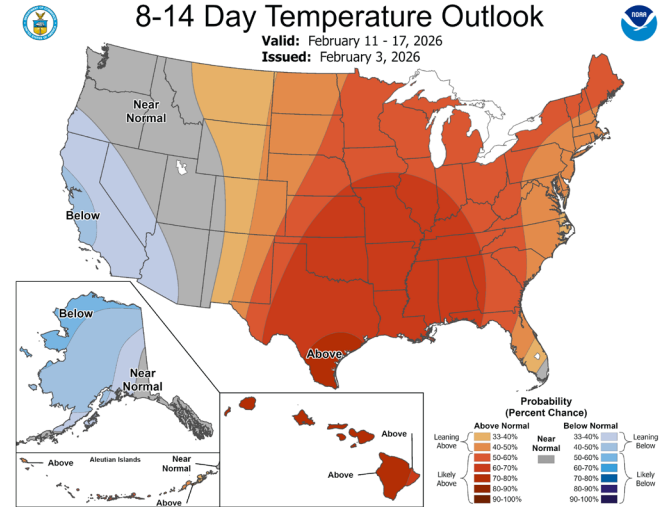

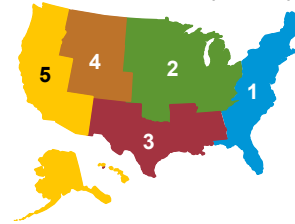

A = temperatures above normal

N = equal chance that temperatures are above normal, normal, or below normal

B = temperatures below normal

Data source: [NOAA](https://www.noaa.gov), Feb 3, 2026

Petroleum Administration for Defense Districts (PADDs)

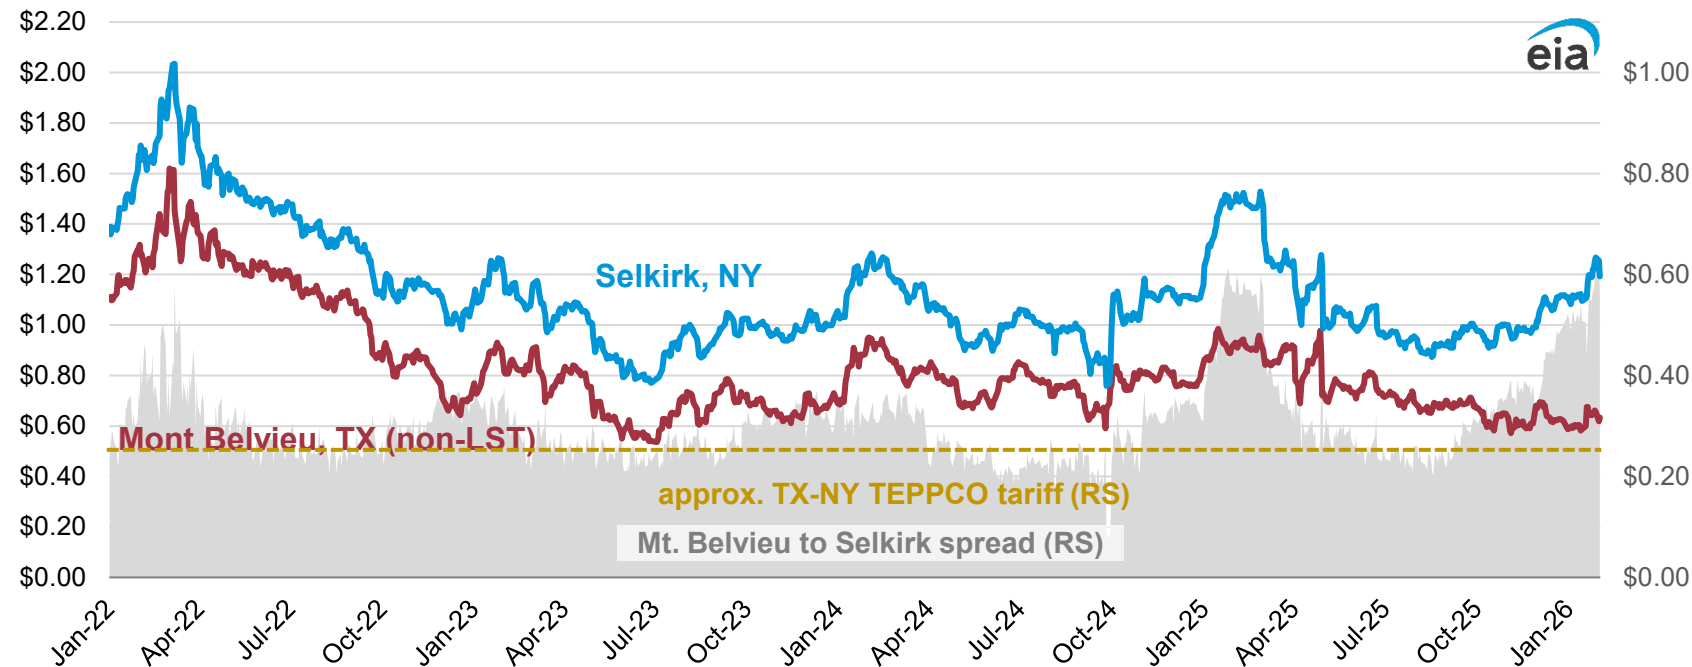

- NOAA forecasts a chance of above-normal temperatures in the central United States, with the highest probability around the Gulf Coast and Midcontinent. Below-normal temperatures are expected along the northern part of the Atlantic Coast, with low probability. Above-normal temperatures are expected to move further east later in the forecast, while the Pacific Coast may have cooler-than-normal temperatures.
- Warmer-than-normal temperatures will result in lower demand in PADDs 2, 3, and 4. There will likely be normal demand in PADDs 1 and 5 for this time of year.

Northeast propane prices, generally dictated by tariff on TEPPCO* pipeline, are high enough to pull product from the Gulf Coast and Atlantic Basin

propane spot prices
dollars per gallon

propane price spread
dollars per gallon

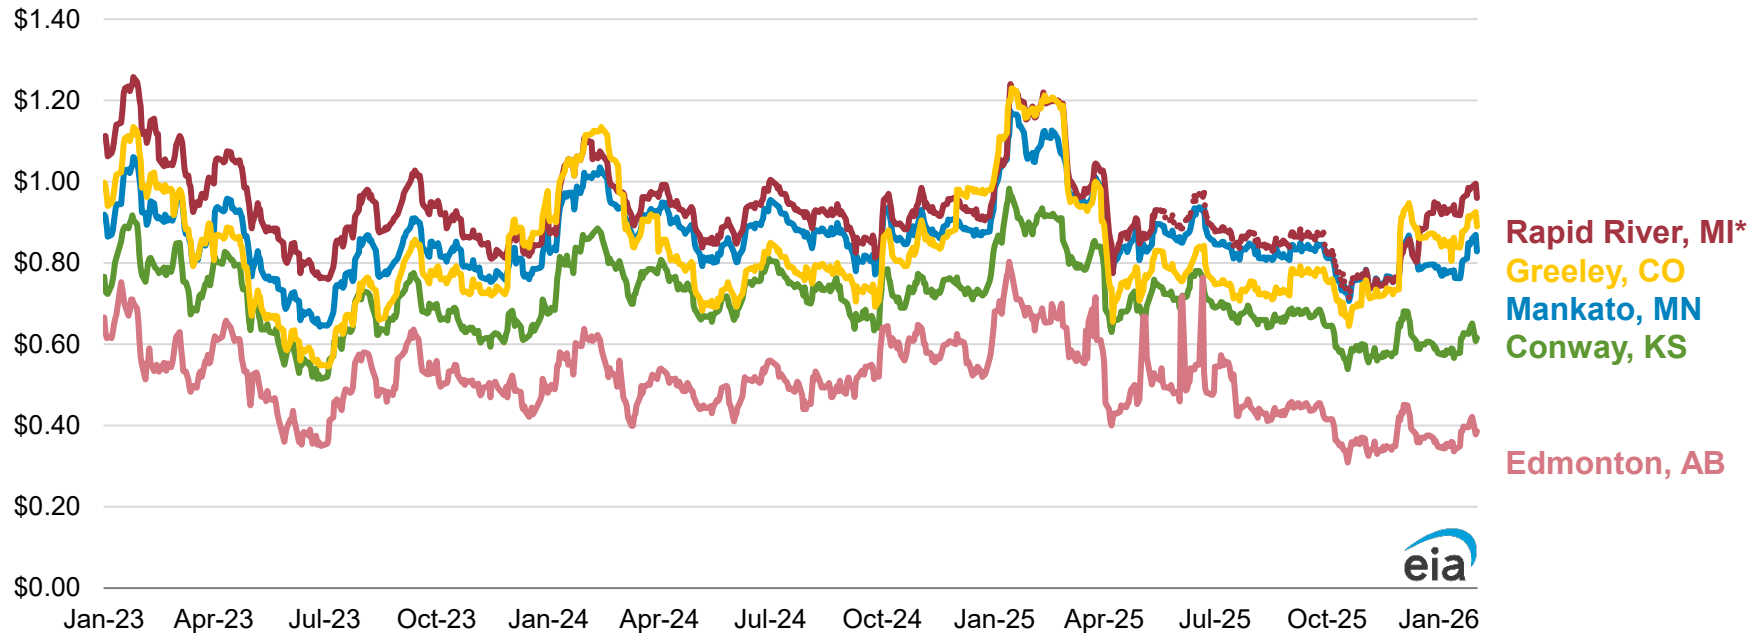

TEPPCO = Enterprise TE Products Pipeline Company LLC

Data source: Bloomberg L.P., data through February 3, 2026; Enterprise Products Partners L.P., [Effective Tariffs](#), FERC No. 54.75.0

Prices at major Midwest market fell this week, correlating with prices at Conway, KS

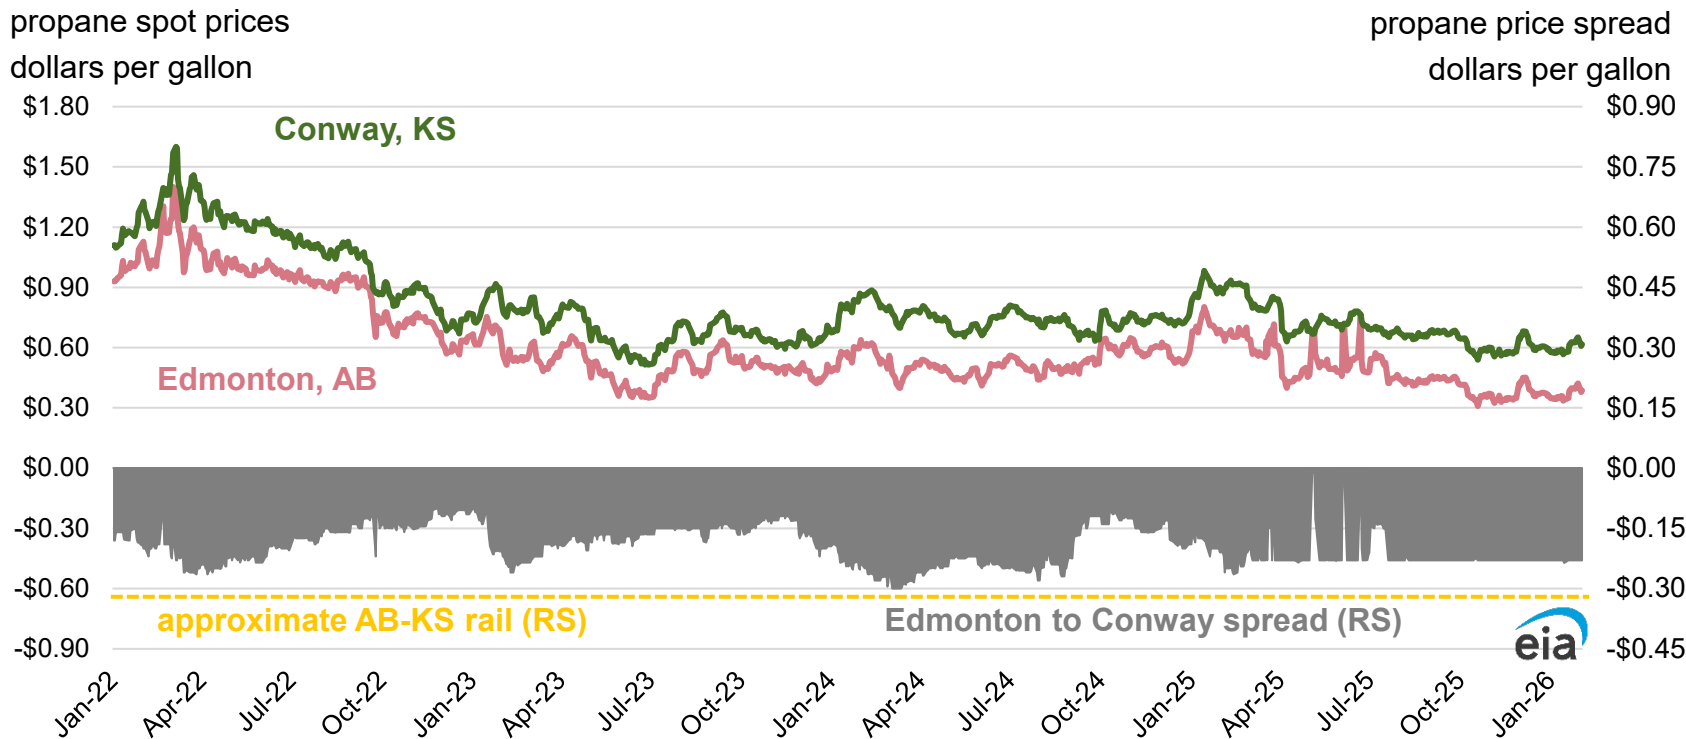

propane spot prices
dollars per gallon

Data source: Bloomberg L.P., data through February 3, 2026

*Rapid River, MI rack prices not consistently available during summer months

Conway premium at ~23¢/gal over Edmonton this week, enough to cover rail transport into some Midwest markets

Data source: Bloomberg L.P., data through February 3, 2026

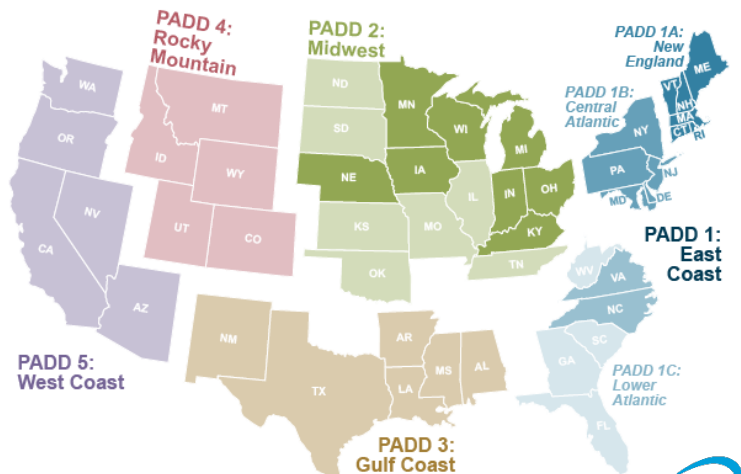

State Heating Oil and Propane Program (SHOPP) updates

- SHOPP is a collaborative program between states and EIA that provides weekly wholesale and retail prices for heating oil and propane at the state level.
- EIA expanded SHOPP in October 2014 to include 14 additional states in propane price data collection. In 2016, EIA added 10 new states to its wholesale propane price publication. This should be taken into consideration when comparing the average prices for the U.S., PADD 1, PADD 1B, PADD 1C, and PADD 2 averages.
- EIA has been providing more granular inventory data to states on a weekly basis since the 2016/2017 heating season.
- EIA implemented two new samples for residential heating oil and propane in October 2019. Under the new [sampling methodology](#), EIA is publishing [standard errors](#) for SHOPP prices.
