

Founders Fellow Spotlight: Ashley Rosario

Ashley Rosario's career has been deeply rooted in the non-profit sector, with a primary focus on youth of color through education and public health. She is the Founder and Chief Executive of Sanative Soles, an organization dedicated to making a positive impact in the lives of marginalized young people.

Sanative Soles not only donates sneakers but also strives to empower and advocate for youth to H.E.A.L—focusing on Health, Education, Awareness, and Leadership. Since its debut in 2023, Sanative Soles has contributed over 200 pairs of sneakers to young individuals, providing them with a shield against bullying, boosting their confidence, and offering footwear that is no longer ill fitting.

Ashley is also Program Manager of Philadelphia Youth Basketball. Having served as a teacher and behavior technician in the classrooms of Philadelphia, Ashley brings a wealth of experience to her role. In this capacity, she continues to champion the cause of young people by creating and implementing Work-Based Learning initiatives.

Ashley's commitment to social impact and compassion is evident in her unique leadership style. Whether in the service of young individuals or her community, she consistently combines these elements to make a meaningful and lasting difference.
