

## CUUC BUILDING COMMITTEE

# Accessibility Upgrades Forum

## Sun Feb 2, 11:40am, Fellowship Hall

The CUUC Building Committee has developed plans to make our building accessible to persons with disabilities. The plans include:

- Updating the outside handicap ramp to the building.
- Building a new handicap ramp on the outside to access to the sanctuary.
- Adding two handicap ramps from the fireside area to the sanctuary as well as a ramp to the pulpit. We have taped out in the sanctuary where the two ramps would reside from the fireside area to the sanctuary.
- Replacing the two bathrooms in the middle of the building with one new handicap accessible bathroom and adding a new handicap accessible bathroom in the RE wing.
- Updating the fixtures in the boys and girls bathrooms in the RE wing.

We have scheduled a forum where we will walk through the architectural drawings for these proposed building improvements.

If you have any questions please feel free to contact the Building Committee chair, Creighton Cray ([creighton.cray@gmail.com](mailto:creighton.cray@gmail.com)).
