The CUUC Environmental Practices Group has arranged for a tour of Westchester County's Daniel P. Thomas Material Recovery Facility (MRF) in Yonkers. We conducted a similar tour on April 4, 2018, at the Ulster County Resource & Recovery Agency facility in Kingston.

Tour capacity is 40 individuals. The MRF is a working waste transfer station and recycling center and safety is always a primary concern. Participants are required to wear closed toed footwear, sneakers at a minimum. We recommend heavy duty shoes, such as construction boots, hiking boots, etc.

## **What happens on the Tour?**

*Tours of the Material Recovery Facility (MRF) educate visitors on the recycling process in Westchester County. MRF tours are free of charge. Groups are taken to an observation tower to view machinery that separate, sort, and prepare materials to be sold to third-party manufacturers. The manufacturers recycle the materials into new end products. From the tower, viewers can also see the tipping floor, where truckloads of recyclables are delivered and dropped off. A brief presentation and educational video is shown to explain the purpose and benefits of recycling.*

## **Logistics:**

10:30 AM: Depart CUUC parking lot. It's a 20 min. drive to Yonkers destination.
