Judging Criteria

Read each section carefully.

The panel of judges represents a cross section of construction industry experts. The competition is comparative, using a point system to assist in the comparisons. A project entry can earn a total possible score of 100 points. The different evaluative sections and their point values are listed below. Answers to questions should be clear and succinct, as directed; the quality of an entry's presentation will have a great impact on its opportunity to win. Use the checklist at the end of this document to review your entry prior to submittal.

Overall Presentation and Conformance to Entry Requirements (5 points)

- Uploaded documents should be pleasing to the eye and legible. Points will be deducted for font that is too small to easily read.

Photographs (8 points)

- Submit up to ten high-quality photographs (jpg format only) of the projects. Ten photos are highly recommended.
- To obtain maximum points, include "in progress" photos for new construction or "before and after" photos for restoration and renovation projects in addition to completed project photos.
- It is recommended to include photos that are relevant to the challenges and solutions outlined in the narrative.
- Provide a short descriptive caption for each photograph in the text box provided, but keep electronic images clear of any labels or captions.

No changes are allowed to this document. The letter may be emailed to info@abcfirstcoast.com.

If not working under a general contractor, specialty contractors must submit a letter from at least the owner. Second- and third-tier subcontractors must at least submit a letter from their prime contracting entity.
- Letters will be assessed for their level of quality (content and position of author). In some cases, a single letter could earn the maximum number of points; however, additional letters are highly recommended.
