Dear Member of the Polish American Chamber of Commerce:

As a proud active member of the Polish American Chamber of Commerce (PACC) and a long-standing friend of numerous Polish Consul Generals in Chicago who we still remain in contact with in my capacity as the Honorary Consul General of Nepal for nineteen (19) years and the elected attorney for the Chicago Consular Corps of 85 countries, I have continued to assist and volunteer for the Chamber and assist your CEO whenever I can. I thought you might find of interest what I do professionally, some of which cases, including the multi-million dollar construction case in the enclosure which involved Polish immigrants, documented and undocumented, where I use a translator at the trial, when necessary. We also have a full-time Polish speaking employee in our office.

Since the Polish Chamber is about business and business contacts, I thought you might find what I have been doing professionally recently interesting, I have taken the liberty of enclosing our Information Sheet together with an article to validate and support my professional activities and results. I wish I could say that we have won 100% of every case, but it would not be accurate although I am pleased to say we have a very high batting average and very few misses and more home runs than we could have reasonably expected. I still believe in and fight for the two vital American words: "equal" and "democracy", as our Constitution says.

One of my trials the jury awarded \$9.5 million dollars, (enclosed), which involved a Polish immigrant whose first language was Polish and we were able to use a translator to achieve full and fair justice for him and his family.

I hope you never need my services since we specialize in serious injury and wrongful death cases, but should the occasion arise, I would be honored to help you, your friends and/or family to obtain full, fair compensation and "justice".

It is not only about earning legal fees. I still enjoy and cherish being David in the David and Goliath battle with Goliath being the occasional inappropriate corporate and/or institutional greed.

Very truly yours,

Marvin A. Brustin
