Planning Retreat

Come join us on retreat as UCC people and churches of the Great Lakes advocating for climate justice and healthy waters! You will be the birth of a movement of actions to bring healing to the earth's largest freshwater basin and everything in it.

There is no Plan B. Together, we are Plan A and we must work with the Spirit to make it happen. We will meet on the beautiful shores of Lake Michigan with opportunities for being in the water, dunes, and forests, fueled by good food and inspired by great people.
