

## Assistive Technology for Caregivers

### Actionable Advice/Education & Inspiration

Thursday, June 17 12:00pm – 1:00pm

Join this informative discussion about challenges caregivers face and how Assistive Technology for Caregivers can help. This free United Way program can alleviate caregiver stress and isolation and increase independence and social connection for loved ones.

Our expert panel will address the needs of caregivers and answer questions. Participants will learn:

- How to find resources and support for family caregivers through United Way's Caregivers Coalition.
  - About types of assistive technology devices and how to use them.
- How Assistive Technology has helped participants and how it can make a difference for caregiving families.
