**Summer Fun** is a play-based program providing children with the opportunity to express themselves through creative art projects, imaginative activities, music, movement, child-directed play, and plenty of outdoor time. This program is an extension of our yearly state-licensed program, open to all children *ages 3 to 5*.

✓ The Co-op's *spacious playground* provides the *space* for children to socialize while developing their gross motor skills. With several large climbers for building muscle strength, spinner bowls for vestibular stimulation and balance training, a shaded oversized sandbox, a winding bike path, and riding toys aplenty – there is something for everyone!

❖ The Co-op offers themed learning units, with *age-appropriate activities*, through which children will be immersed in nature, make scientific discoveries, build their self-confidence, and have **FUN!** What will your child achieve this summer?
