A Value Analysis Solution

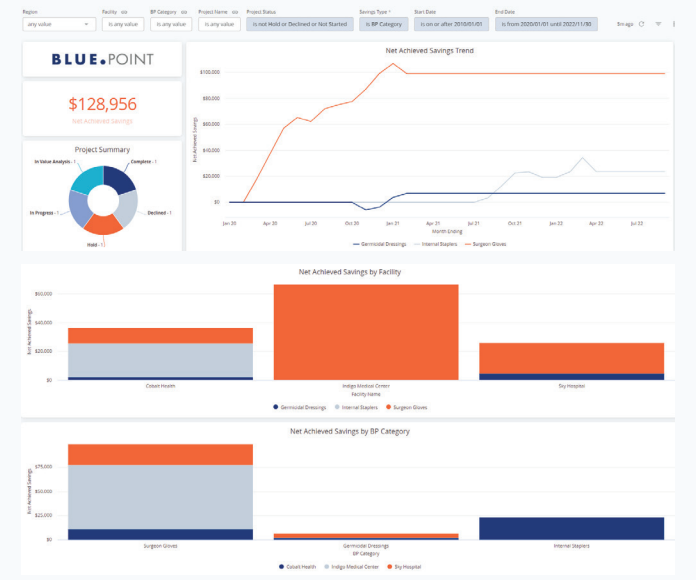

Your savings goals continue to increase as price and contract opportunities max out - **Now what?**

Our web-based platform provides key information in one solution to establish clinically-focused supply chain savings opportunities.

- Evidence-based best practices
- Implementable Action Plans
- Internal and external peer utilization benchmarks
- Pipeline of projects and opportunities

Your Value Analysis decision has been made. **Have you looked back to see the results?**

Blue.Point offers project and savings tracking that highlights success and identifies necessary corrections – *before your next budget cycle*.

Learn how Blue.Point has the insight, data, and tools to gain a new kind of visibility into clinical and supply chain practices and achieve savings you didn't know existed. Visit our website at www.bluepointscs.com or email us at info@bluepointscs.com to learn more.
