

ATVBC Polaris Trail Data Grant Program

Guidelines and Funding Application

This initiative supports the collection of GPS trail data to enhance mapping, trail planning, and network development across British Columbia.

All trail data files submitted must be approved by Polaris Canada before funding is awarded. Polaris Canada will review the trail data files and inform ATVBC which will be accepted and paid from grant funds. All trail data files submitted will become the property of Polaris Canada and ATVBC. All trail data files should be submitted by October 15, 2026.

Program Details:

- **\$2.50 per kilometre will be paid** on submitted and approved GPS trail files
- Funding is available for the first **1,000 kms** submitted and approved
- Maximum total funding available: **\$2,500 total**

(Please note that the Trail Data Grant Program does not include GPS trails on private lands IE Mosaic.)

Program Purpose:

- Improve accuracy of trail mapping
- Support future trail planning and advocacy
- Build a consistent digital trail network for ATVBC regions
- Strengthen trail infrastructure, improve rider safety, and support long-term trail sustainability across British Columbia
