April 3**

MAKE A DIFFERENCE!

AmeriCorps VISTA (Volunteers in Service to America) is a national service program that combats poverty by building the capacity of nonprofits and public agencies, placing full-time members for a year to create sustainable solutions in areas like education, economic opportunity, and health, rather than direct service. VISTA members develop resources, create systems, recruit volunteers, and build partnerships to strengthen organizations for long-term impact, receiving a modest living allowance, professional training, and an education award or cash stipend upon completion.
