

Vaccine Administration

Faster, safer and more accurate
with barcode technology

Increased Demands for Vaccinations Require Optimized Workflows

As medical facilities set up areas to meet high volumes of vaccinations, they need the right technologies to optimize vaccine administration.

Zebra Barcode Technology

Zebra scanners, printers and print media are specifically designed for healthcare to provide safe, effective and virtually error-proof workflows so you can deliver the right vaccine to the right patient at the right time.

Scan Barcodes and Capture Critical Data

DS8100-HC

CS60-HC

- Capture vaccine vial date, manufacturer, lot number and expiration date
- Scan ID for positive patient identification (PPID)
- Automate data entry into electronic health record (EHR)

Print Barcode Labels for Accuracy and Tracking

ZD420-HC

ZD620-HC

ZQ610-HC

- Administer vaccine and print label with captured data
- Attach label to vaccination record card
- Facilitate dual-dosage administration

Leverage Zebra Printer Media for Reliable Performance

- Pre-tested barcode printer media optimized for use with Zebra printers
- High print quality, durability and read performance

#10028318
ZD420-HC/ZD620-HC

Optimize Vaccine Administration

Fast

Immediate data capture enables workflows with greater throughput, efficiency and accuracy

Accurate

Automatic data capture reduces manual-entry errors

Barcode technology links vaccine vials to PPID and supports dual-dosage tracking and confirmation

Safe & Compliant

Disinfectant-ready housing for printers and scanners withstands repeated sanitizing

Solutions provide ability to connect to EHR and maintain HIPPA compliance
