ANESTHESIA FOR PATIENTS with endocrinopathies

Stephanie Fissekis, DVM, DACVAA

This lecture reviews the comorbidities, anesthetic concerns, management techniques, and drug selections appropriate when anesthetizing dogs and cats with hypothyroidism, hyperthyroidism, diabetes mellitus, insulinoma, hypoadrenocorticism, and hyperadrenocorticism. Discussion of recommendations for patients both stable and in crisis is included.

Credit Hours: 1 RACE Approved CEU

Wednesday, October 9, 2024
6:30PM-9:00PM
