The Georgia Veterans Outreach Project will host a **FREE** virtual legal clinic for veterans!

**NOVEMBER 7, 2020**

This event will connect veterans who have legal needs with volunteer attorneys who have committed to provide advice.

Attorneys will provide advice on legal issues that include veterans benefits and other civil legal issues resulting from the pandemic, including consumer, family, housing, shelter, and other issues.

Veterans can connect with the clinic either by computer & webcam or by phone. If you do not have reliable phone or internet service, you can come to offices in Athens, GA, where you can connect to attorneys using project software.

We will ask veterans to pre-register for this event. Registration will open in early October.

The Georgia Veterans Outreach Project is a collaborative effort of the Military Legal Assistance Project of the Georgia Legal Services Program and the UGA Veterans Legal Clinic, with funding provided by the American Bar Association.

**Please spread the word about this opportunity! Thank you!**
