

### Chapter to Chapter Connections to Benefit You

The start of an academic year brings opportunities for new connections and growth. Make this your year to connect with the International Foundation of Employee Benefit Plans and its sister organization, the [International Society of Certified Employee Benefit Specialists](#) (ISCEBS). The Society—akin to an alumni association for Certified Employee Benefit Specialist (CEBS) graduates and participants—is the premier interactive community providing educational resources, innovative thinking and collective wisdom to help members excel and prosper in their careers. Coming from a wide range of industries and professions including risk management, insurance, actuarial science, human resources and more, Society members make up more than 40 local chapters across North America. There is likely to be a chapter near your university!

The new partnership provides the chapters of Gamma, the Society and **you** with wonderful opportunities—from connecting you to potential speakers for your meetings to aligning you with mentors in the industry. Watch for more collaboration in the coming months between the organizations in order to provide you with the professional connections you need as you move forward into your career.

Stop by our CEBS booth at the International Conference to learn more about how you can benefit from earning your designation and aligning yourself with an ISCEBS chapter. We look forward to meeting you!
