

WESTFIELD™

Westfield offers students professional growth and development through our Summer Internship Program (SIP) and Graduate Development Program (GDP). The SIP offers opportunities that relate directly to your career interests and goals. The GDP prepares recent college graduates for an exciting career in the insurance industry through formal training, teambuilding, networking and coaching experiences.

You're empowered with everything you need to achieve your future career. Westfield provides scholarship opportunities to individuals who are interested in the property and casualty insurance industry. Click [here](#) for more information.

Students like you are already taking advantage of opportunities offered by Westfield. Andrew Merfeld, an alumnus GIS member of chapter Alpha Alpha, former Westfield Intern, recent GDP participant and current SBA Underwriter says, "I knew I wanted to be at Westfield but my biggest regret is not coming to Westfield sooner. Everything is a progression at Westfield – my career path was laid out for me."

Gabrielle Yarbrough, a former GIS member of chapter Beta, recent Westfield Intern and current GDP participant added, "As an intern, I felt that Westfield provided me with the foundational knowledge of insurance that I would have never received from a textbook. The Graduate Development Program has continued to build on my knowledge and prepare me for my career here. In a company as great as Westfield, where employees are valued and things are always changing and improving, I very easily found my niche."

It's your time to shine. Visit [our website](#) to begin your professional journey with Westfield; a place where insurance is more than just commerce – it's compassion, community and purpose.
