

SPEAK UP NOW FOR LOWER COST HEALTHCARE OPTIONS

Have you ever had **trouble paying for surgery**?

Did you know that **surgeries performed in Ambulatory Surgery Centers (ASCs) cost 60% less** than the same surgeries performed in a hospital?

Did you know that SC has fewer ASCs than other states because we have **a law that allows competitors to stop new ASCs** from being built?

At precisely a time when many **South Carolinians are being crushed by medical debt**, we lack access to lower cost facilities because higher cost competitors are using the Certificate of Need (CON) law to block their construction.

It's time to repeal CON, give our citizens options and trust them to choose the healthcare providers who can best meet their needs.

Would you like to see more lower cost healthcare options in SC?

Call or email your SC House Member today with this message:

Vote yes to S. 164 so SC's citizens can have broader access to lower cost healthcare.
