GEOMATICS WORKSHOP SERIES

School of Civil and Construction Engineering

A Workshop on GNSS & Geodesy

The Geomatics group at Oregon State University is excited to announce that registration for their GNSS & Geodesy workshop has opened. For more details about the workshop, and a link to the registration portal, please scan the QR code or visit https://gcapgeospatial.org/events/

Event Details:

Date: September 2-3, 2026

Location: Owen Hall, Room 110
Oregon State University

Address: 1501 SW Campus Way,
Corvallis, OR 97331

What to Expect:

Foundation in Geodesy: Grasp fundamental geodetic concepts and their applications.

Coordinate Systems and Transformations: Understand different coordinate systems, their transformations, and practical usage.

GNSS Technology: Gain practical knowledge of GNSS measurements, error sources, and best practices in GNSS surveying.

Modernization and Future Trends: Get updated on the latest developments in NSRS modernization and future trends in GNSS technology.

Oregon State University

GEOSPATIAL CENTER FOR THE ARCTIC AND PACIFIC

*Please note that **this workshop has a maximum enrollment of 50 participants and is filled on a first come first serve basis. Register TODAY! If you have any questions,** feel free to contact Brett Murphy at brett.murphy@oregonstate.edu.*
