

# There is a Change In Leadership at the Library

Denise Stefanick is retiring as Director of the Library after over 20 years of service. She helped to secure stable operating funding for the library and facilitate the land purchase, funding, and construction of our new library building. Denise is a White Lake resident and plans to stay involved as an advocate for valuable library service for the community at an economical price to the taxpayers. Please wish her well in her retirement.

We're pleased to announce that the Library Board has hired April Stevenson as the library's new Director. April has ten years of management experience as the Head of Information Services at Novi Public Library and over twenty years in library services at other local libraries. She has a Master of Library and Information Science and a Bachelor of Arts in Journalism from Wayne State University. She is a Commerce Township resident whose adult children attended Lakeland High School in White Lake. Please extend a warm welcome to April when you see her.
