

Caring for Lowell. Keeping you safe. Keeping you healthy.

Please don't let fear of COVID-19 prevent you from getting your routine health care.

We are here for you 24 hours a day, 7 days a week by calling 978.937.9700.

We are not accepting walk-in appointments right now. Be sure to CALL before you visit the health center.

Some appointments will be scheduled via telephone. Others will be at the health center. We will discuss this with you when you make your appointment.

Lowell Community Health Center is safe. We are disinfecting frequently throughout the day and overnight, and practicing social distancing.

Your HEALTH and SAFETY are our top concerns.

To help minimize the spread of infection:

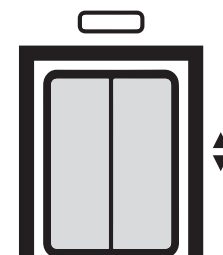

Please wear a face mask. If you do not have one, it will be provided.

When you enter the building, a Lowell CHC Greeter will welcome you, assess your health, and take your temperature. You will be asked to use hand sanitizer, which we will provide.

You will then take the elevator to your department and go directly to the exam room to be seen by your provider and receive follow-up information.

We are here for you. If you have concerns or questions, please call 978.937.9700
