

SUPPORT THE KAPALAS

help us support our team member Wyatt and his family.

Diana's Story

Diana Kapala is our team member Wyatt's mom. On February 20th, Diana was home with her family when she experienced a series of seizures and became unresponsive. Diana was rushed to the hospital where it was determined she had a very large tumor in her brain.

On February 28th, Diana underwent brain surgery to remove the tumor. Pathology indicated that it is Stage 2 Oligodendroglioma, which is in the tree root-like neurons called the gliomas. Because of its positioning and spread, the neurosurgeons were unable to remove it entirely. After recovering from surgery, Diana will need to follow up with 6 weeks, 30 rounds total of chemotherapy and radiation.

THURSDAY APRIL 4TH, 2023 | 10 AM TO 10 PM

Help us reach our goal of \$10,000 to support their amazing family by joining us on Thursday April 4th, where Culver's of Lakeville will be donating 15% of sales to the Kapalas, scanning the QR code below to donate, or by visiting gofund.me/3de840c6.
