

LEADERSHIP LAKEVILLE CLASS OF 2024-2025

invest in your leaders, engage in our community, shape our future

Leadership Lakeville is a nine-month program to develop community-minded leaders by providing a comprehensive look at the people and places that make Lakeville thrive.

From September through May, participants meet monthly at different locations across the city, each session focused on a key sector such as city and state government, education, public safety, and local business.

Imagine the possibilities when everyone shows up every day thinking and acting like a leader. *Erik Therwanger, Author and National Speaker, Founder of ThinkGREAT - 2025-26 Cohort Coach.*

In addition to the class sessions, participants will volunteer a minimum of four hours for one of our local non-profits or at one of our school-partnered or local community events.

By the end of the program, participants leave with a well-rounded view of Lakeville, a stronger sense of personal leadership, and a network of peers equally committed to our thriving community.

If you are looking to grow professionally, contribute to our community, connect with local leaders, and tour some cool places - Leadership Lakeville provides the knowledge, tools, and inspiration to get involved and make an impact.

Thank you to **Loeffler Construction & Consulting**, our program sponsor.

The Leadership Lakeville program has been invaluable to me as a young professional, allowing me opportunities to grow personally and professionally! *Baylee Lewis, Marketing Coordinator, Loeffler Construction & Consulting - Class of 2024-25*

Participants take part in facility tours, interact directly with local leaders in panel discussions, and engage in leadership development sessions, led by experienced coaches.
