*The Path to Dignity and Achievement*

## Who We Are

At New Avenues to Independence, our mission is to uphold the dignity of persons with disabilities (children & adults) by increasing accessibility through innovative opportunities for community connection and achievement. Our team provides innovative, high-quality programs and services to support them on their journey to independence, which has led us to become a certified provider for the Ohio Department of Developmental Disabilities.

## Our Programs & Services

### Residential Services

Our Residential Services include ten Intermediate Care Facilities (ICFs) and group homes owned and operated by New Avenues across Northeast Ohio. Our ICF homes have everything our individuals need and desire, ensuring alignment with their Ohio Individual Service Plan (OISP).

### Community-Based Services

New Avenues' Community-Based Services include our waiver homes. With this service, individuals with IDD live in their own homes with the support they need to thrive. These individuals differ from our ICF individuals in a couple of distinct ways. Two key differences include working in the community and paying rent.

### Inclusion Services

Inclusion Services empower our individuals to be active in their communities. Our team works with each individual to achieve their personal and professional goals through support such as employment support, our day program, volunteering, and, when possible, navigating the community through publicly available resources.

### New Avenues Therapeutic Summer Camp

Our Summer Camp provides a safe, structured, and engaging summer experience for individuals with disabilities ages 3-21. During this four-week program, our campers participate in weekly therapeutic and recreational programming. The camp's activities align with their Extended School Year (ESY) goals and reinforce individualized educational and developmental goals.
