

Do You Know a Future Olympian?

You can help support them to compete at their peak!

LifeWave is here to support Olympic hopefuls working to represent their countries in the upcoming 2021 Summer Olympics starting July 24 and ending August 8, 2021 in Japan.

Here's how you can help

For any athlete who is a legitimate contender for making an Olympic team (or has already qualified) from any country in which LifeWave distribution is approved, we'll provide **one X39® and one Carnosine on a monthly basis**, free of charge to that athlete, until the Olympics (and 3 months past the Olympics if they achieve a podium finish). Use of the patches during the Olympics will be at the sole discretion of each athlete as per Olympic rules for enhancing sports performance and recovery. The agreement they sign addresses this issue. Once an athlete signs our agreement and that has been received by LifeWave, you'll get a free sleeve of X39® for yourself!

SOME DETAILS:

- A form is available in the back office in our core languages that you will be required to provide to the athlete, to be filled out and returned by you to us*, that will provide all relevant information. That form will be sent to LifeWave for review to *marketing@lifewave.com
- Once the athlete's credentials and credibility have been established as legitimate, you will be sent a legal Agreement ("Agreement") to forward to the athlete that outlines the mutual responsibilities between athlete and LifeWave corporate. The agreement will be available in the languages we serve.
- Have the athlete review, sign and send it back to you and then you will forward it to marketing@lifewave.com
- Once that agreement has been received, details will be sent to customer service by the marketing dept. and an account will be set up for a recurring shipment for a limited time to that athlete, with all volume and money removed. No volume or commission will result from this program. CS will track athletes and that you were the referring distributor and you will be sent a free sleeve of X39 within apx. 2 weeks of receipt of a signed Agreement. You will want to track their success at the Olympics and if they hit the podium with a medal, you will confirm that with CS and the athlete's auto ship will continue for 3 more months, otherwise their auto ship will be cancelled at the close of the Olympics.
- We will require a photo of them playing their sport or posing in their gear ideally with the patches visible which we will be able to post on social platforms and use as we wish to promote their use. That photo will be sent to marketing@lifewave.com.
- To avoid social posts that are not compliant, athletes will be asked to send us their posts that our corporate social team will review and approve prior to the athlete posting.
- We also will be looking for a video of them excelling at their sport, but this won't be mandatory.

So let's get started! Once an athlete has signed through your efforts, you get your free X39®!

SPREAD THE WORD!
