

FSANA's **AeroCamp**SM program is designed to give young people a unique opportunity to explore the vast and exciting world of aviation and aerospace at their local airport. AeroCamp programs are presented at participating flight schools around the country who are members of the **Flight School Association of North America**.

begin the adventure

Campers learn firsthand about the dynamics of airplanes and flight and about the broad spectrum of careers in the aviation and aerospace industry. Every camper is given the opportunity to fly an aircraft if they choose to. However, flight time is only a fraction of the AeroCamp experience and is not required to have a great learning adventure. AeroCamp often includes site visits to various aviation-related organizations.

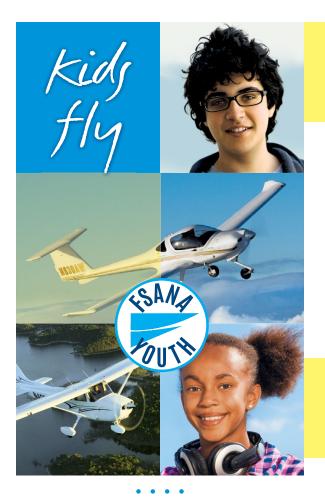

Camps generally run for a period of five days during the summer and select seasonal dates. Most authorized facilities offer two AeroCamp level experiences—AC Basic and AC Advanced. Campers can attend either one or both.

Visit **myaerocamp.com** for a list of participating FSANA members.

Brochure design by John Lotte, Allentown, Pa.

AeroCamp programs are operated by members of the Flight School Association of North America [FSANA]. Each member is solely responsible for the operation of their camp. FSANA does not own, operate or manage any of the participating flight schools and FSANA does not exercise control over, supervise, or monitor any camps in any way. FSANA will not be responsible for any harm which occurs as a result of an AeroCamp program, whether to person, property or otherwise. Rates and procedures for individual camps are established by each flight school. AeroCampSM is a service mark of FSANA. The AeroCamp logo is a registered service mark, licensed by FSANA to participating FSANA members, and may not be used without the prior written consent of FSANA.

Flight School Association
of North America

AeroCamp Basic

Perfect for campers with little or no previous aviation knowledge or experience. Learning activities include:

What makes an airplane fly

Who flies airplanes

Learn about airplane flight controls and instruments

Learn how to conduct a pre-flight inspection

Basic information on radio communications

Learn about airport traffic patterns

Field trips to various destinations at the airport

Learn the basics of aeronautical charts

Orientation flight time of up to 1 hour.* Flight time is logable.

AeroCamp Advanced

Intended for campers with previous aviation knowledge or experience. *AC Basic camp is not a pre-requirement.* Learning activities include:

Basics recap—What makes an airplane fly; Who flies airplanes; Airplane flight controls and instruments

Perform an actual pre-flight inspection

Advanced information on radio communications

Insights about airport traffic patterns

Plan a cross-country flight and make the flight

Study FAA written test questions

Field trips to various destinations at the airport

Aeronautical charts advanced study

Flight instruction of 2–3 hours.* Flight time is logable.

*Any camper may elect to not fly.

Changing the face of aviation

FSANA's goal for its member programs is to provide motivational platforms for anyone interested in the exciting world of flight. Established in 2009, FSANA is a membership-oriented association with a mission of increasing the pilot population by engaging passion-driven people at an early age. FSANA's AeroCamp program is a prime example of how member flight schools are engaging the youth population. New members welcome, application at fsana.com.

THE FSANA MISSION: To work in alliance with the aviation and aerospace industry; to serve and foster the flight training industry; to provide programs and services that will enhance the ability of flight schools to serve their customers and communities; and to promote best business practices which will help flight schools and their industry thrive and increase the pilot population.
