

# Dedicated Senior Medical Center

IN PARTNERSHIP WITH OHIOHEALTH

Dedicated Senior Medical Center is a growing primary care practice, dedicated to serving SENIORS with 3 medical centers in the Columbus area. Providing coordinated care that not only treats patients but can improve the health and quality of life is a basic fundamental to how we practice. That said, we can't do it without physicians who share our vision: **To be America's leading primary care provider, transforming care of the neediest populations.**

We'd like to share a glimpse of what we offer our physicians and patients to make this vision a reality. Dedicated is a physician-led medical group specializing in primary care for Seniors. Using a value-based model of care, we invest in the doctor-patient relationship through small patient panels (450 max vs 2,300 in a fee-based practice) and monthly office visits. Our physicians spend 10x the national average of face time with each patient annually.

In addition to robust primary care and prevention, the Dedicated model is designed to care for the whole person—heart, mind, and spirit—supporting patients with door-to-doctor transportation, on-site specialty care and prescriptions, acupuncture services and on-site health and lifestyle opportunities such as Tai Chi and bingo. Anchored in a foundation of trust and physician accountability, we have demonstrated our ability to shape the health outcomes and healthcare utilization of our patients.

As we grow, we are seeking talented primary care physicians who are dedicated to the practice of preventive medicine; physicians who want to be fully accountable for managing their own patient panel outcomes in a comprehensive and coordinated fashion. We want our physicians to be among the highest paid primary care physicians in their market. After one year of service, top performing Dedicated physicians who meet qualifying criteria are offered partnership status, which entitles them to quarterly profit sharing opportunities in addition to their base pay.

We would be happy to answer all of your questions and schedule a VIP tour at one of our three Columbus locations.

Sincerely,

Paul Hicks, MD, MSHCM
