

## Message from Tino

Welcome to the first edition of **Turknett Leadership Group's** monthly newsletter focusing on "unleashing" leadership potential. One doesn't have to look far to locate a plethora of information on leadership & culture, but we anticipate you will find our information crisp and impactful in respect to your leadership journey. We will also plan to stretch all of us in respect to exploring cutting-edge leadership theories, like Josh Turknett's presentation, above, on neuroscience and its association with human performance.

You will receive "Unleashing Leadership Potential" the second Wednesday of each month. Changes will be made, over time, to reflect feedback I/we receive from our readership. Edition #1 includes: a message from me; rich content from Josh Turknett; a segment on what we are reading at Turknett Leadership Group; information on our upcoming Women In Leadership series; a message from one of our Leadership Character Award finalists; and a special program offer from your friends at TLG.

The science and art of leadership has never been as important as it is today. Feel free to share with your network and to provide feedback to me and/or a TLG team member as well. Looking forward to deepening the **Turknett Leadership Group** relationship with all of you.

Tino
