

Virtual 18th Annual East-West Business Connection

"Disruptions: Opportunities of Growth"

Event Details:

APACC's global supplier diversity matchmaking event attracts nearly 35 attendees including more than 50 Corporate buyers who will meet virtually with minority business owners (W/MBEs) for specific procurement needs.

One on One Business Connection Networking

One on One networking provides attendees the opportunity to participate in random interactions. Much like speed networking, this is a great tool to mingle. Networkers will be matched with other attendees and have opportunities to create business connections.

Exhibit Booths

Attendees can enter booths and interact live through videos with exhibitors as well as through text chat, all controlled by the exhibitors. Exhibitors can embed rich content into their booths including videos from YouTube or Vimeo, social media links, websites, and more.

All paid attendees will receive a copy of our Lexicon which contains the company and contact information of all event participants.

* Cutoff date to be included in the Lexicon is Friday, February 19, 2021.
