Beyond Lithium Ion XII Poster Instructions

The program committee for this symposium will review abstracts for quality and responsiveness to the symposium purpose and theme. Our intent is to provide an appropriate venue for sharing research results, approaches, and ideas with those working in the field of scalable electrochemical energy storage or those with interest in beginning work.

Please submit your poster abstract by May 1, 2019.

[Submit a Poster Abstract](#)

Submission Requirements

- Abstract must be less than 500 words.
- The title must be in bold face.
- The lead/first author's name must be in bold face.
- The presenting author's name should be marked with an asterisk and e-mail given.
- Abstract must contain affiliations for all authors.
- No graphics or figures are to be included.
- The font size should be 12pt.
- Vertical length of posters should be no greater than 42 inches.
- Horizontal width of posters should be no greater than 36 inches.

At the Meeting

We encourage you to put up your poster on the afternoon of your poster session. All posters will be displayed on freestanding easels. Easels will be set up and assigned in advance.

You must be available during the official time of your poster session to answer questions about your poster. Poster awards for excellent research will be given to the students at the poster session.

Please remove your poster after the poster session. Unclaimed posters will be disposed of after the event.

*Please note the food and beverage provided during the poster session is being paid with sponsorship money received and is not included in the registration fee.
