

March 29,2020

Dear families,

Despite the challenges we are currently facing due to the COVID-19 virus, we are trying our best to continue our day to day operations and processes with as much normalcy as possible.

Matriculation season is quickly approaching and once again CNG has partnered with ICAL in order to offer audiology and optometry tests (**CO\$40,000 each**) within school premises. The testing dates will be determined as soon as we return to campus. We *strongly* recommend that you choose to test your children with ICAL, as in doing so you will complete a requirement for matriculation without risking unnecessary exposure.

Students entering **K4, K5, 1st, 3rd, 6th** and **9th** grades need to submit these tests (administered within the last year, as of May 2019) as part of the matriculation requirements.

If you wish to get your child tested at CNG, you will be able to register here www.icalcolombia.org/cng as of March 30 and through April 13th (exception: students NOT currently matriculated and in class at CNG, such as the incoming K4 students).

You will also find the registration link in the NOW section of the school's website and under the Admissions section under "Matriculation".

If you register, you will NOT need to upload the tests into Skyward. The records will be made available to the infirmary directly. For registration you will need to include your child's ID type and number and your child's six digit school ID (ex. 423801) when you sign up.

For any questions, contact: ICAL at examenes@icalcolombia.org, Matriculas at matriculas@cng.edu, or the Infirmary at lsantos@cng.edu

Sincerely,
CNG Admissions Office
