“Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is the most important.” ~ Bill Gates

Our teachers are currently involved in professional learning to support creative ways for our students to show what they know. This week, I was able to learn about how to create a podcast and to use Padlet (a virtual bulletin board) and Goformative, a tool for teachers to observe student work in the moment and correct misconceptions. We are definitely learning important skills that will only increase our capacity to engage and support students when we are back together. Thank you to families who provided us with feedback- please take a moment to complete this brief questionnaire about conferences- [HERE](#).

### **Thank you's and Recognition:**

- We had great participation in SLCs; thank you for taking the time to meet with your child's Advisor!
- Thank you for participating in our principal coffee this week. Please see the topics below:
  - Recording and posting lessons- checking on the feasibility of this
  - Matriculation- including hearing and eye tests. Admission has sent the information
  - PreAP- will parents be notified? Yes- see information below. Our communication system has slowed from being in the virtual environment. At this time, students are checking individually and the information will be posted in Google Classroom. If parents would like immediate information, have them contact [ashley.barker@cng.edu](mailto:ashley.barker@cng.edu)

**From English Department:**

Dear CNG Middle School Families,

We hope that this email finds you all doing well during this time.

Today we wanted to take a moment to recognize how much our students' reading lives have changed with this shift to distance learning. Normally we are surrounded by books in our classrooms and have access to our outstanding libraries and our amazing librarians as in person resources, not to mention our classmates and teachers who encourage and recommend books to us. Now we have been thrust into this new normal of distance learning where our resources have all become remote, even the human ones. Our students are proving themselves to be adaptable, engaged, problem solvers, and we want to commend them for their flexibility and engagement!

A new challenge some of us might be facing is accessing texts. To that end, our head librarian Lisa Habegger has put together [this](#) outstanding resource that has links to many digital resources that organizations have made free for students during this time. It is really amazing how many digital reading resources are out there for us! Of course students continue to be more than welcome to purchase books through ebook platforms, but we wanted to share these no-cost-to-you resources that Ms. Habegger curated on our library website for all students.

Hopefully this will be helpful in keeping us all happily reading during this era of distance learning! Reading is such a great place for us all to connect, escape, and process during this challenging time.

Happy reading!
