

"In each loss there is a gain as every gain is a loss. And with each ending comes a new beginning." ~ Buddhist Proverb

Continued from the first page:

Please know that our professional teaching staff always have thoughtful, coordinated lessons planned each day whether or not your child is on a zoom call or in google classroom at another time in the day. This summer, many of our CNG faculty took courses from Global Online Academy where they describe Synchronous and Asynchronous like this:

"When designing online learning, it's important to see asynchronous experiences as equally valuable as synchronous ones. Asynchronicity allows students time to work at their own pace, to take time to compose ideas, and to express themselves in ways that might not be possible in real time. In addition, asynchronous work allows students to absorb content, prepare assignments, and complete projects offline: it's a way to avoid hours of staring at screens."

Please talk with your kids and support how they manage their time asynchronously. It is powerful to get them to plan their "off screen" and on screen time while making sure they meet their deadlines. One of the benefits of asynchronous time is our kids being about to organize themselves, move around and take breaks as needed. Please be in communication with your child and child's teacher about specific lessons that may be planned off or online.

- Monday: is the end of the quarter. This means that it will be the last day for our students in health and dance class. Please remind your kids to check Skyward on the link they need to be for their class on Tuesday.
- Tuesday: progress reports are available. See instructions [HERE](#). A progress report is just a “snapshot” of how your child is doing at quarter. We only have 2 grading periods in middle school- semester 1 and semester 2. So please know that your child will have time to improve their learning from the 10/26 progress report.
- Thursday: **No Classes on Thursday, October 29: Biosecurity Training on Campus for Teachers**: In order to ensure that all teachers tested negative before accessing the campus, the school has shifted our date for Biosecurity Training and Preparation to Thursday, October 29. For your planning purposes, please note that no virtual classes will take place in order to allow our teachers to receive training on campus for the implementation of biosecurity protocols for our November 9 hybrid start.
- Friday: Halloween Costumes will be allowed all day following these guidelines- [HERE](#).
