PTO declares a Pacer Penny War!

Join us for a friendly classroom competition as we race to see which class can earn the most points! Kick off for this competition will begin at our **Party on the Playground** on September 13th, with the rest of the competition running September 16th-18th.

Denomination amounts can be either positive or negative. Students will add **positive points to their own classroom's jar** and may add **negative points to other classrooms' jars**. Pennies, quarters, \$5, and \$20 will earn classes positive points. Nickels, dimes, \$1, and \$10 will earn classes negative points. **All checks will earn positive points regardless of their amount.**

PLEASE MAKE CHECKS OUT TO CONGER PTO!

The classroom with the most **points*** at the end of the day on the 18th will be awarded with a **Pizza Party on September 27th!**

| Positive Points | Negative Points |
|------------------------|------------------------|
| Penny: 1 point | Nickel: -5 points |
| Quarter: 25 points | Dime: -10 points |
| \$5: 500 points | \$1: -100 points |
| \$20: 2,000 points | \$10: -1,000 points |

*It is possible for a class to have the most *money*, but not win the party based on their point total.
