

# Learning Extension Centers

A free space provided by community partners who have WiFi to give students a safe, effective place to learn and study while they can't be in a school building. The goal of these spaces will be to help meet the academic, social, mental, and emotional needs of the student. Each location will have details specific to its location, including start dates. All that information will be communicated during the registration process.

## Locations/Registration:

SWCI: 50 Ross St - Thurs 4-8pm

<https://www.swcidelaware.org>
