## Message From Thack

A family was driving through Kansas on vacation. The family's five-year-old was looking out the car window. "Boy," he said, "it's so flat out there, you can look farther than you can see."

That's a great phrase--"you can look farther than you can see." This suggests to me those folks who have a "vision." Visionaries tend to look farther than they can see. Great scientists and inventors like Leonardo DaVinci, Nicholas Copernicus, Marie Curie, Thomas Edison, Alexander Graham Bell, and Sir James Dyson (vacuum guy) could look farther than they could see to conceive things others could not. They allowed their imaginations to run wild, free from the constraints of convention, tradition, and science as it was known at the time. This imagining led to new scientific discoveries and inventions that have improved the quality of our lives. They had a "vision" that freed them to consider possibilities others could not.

Two thousand years ago, some "wise men" saw an astronomical anomaly in the sky and had a vision. Looking farther than they could see, the wise men followed this star from probably Iran all the way to Bethlehem where they encountered the Christ child. You know the story. What fascinates me is that presumably thousands, if not hundreds of thousands of other people living in that part of the world saw the same bright light in the sky, but they did not leave their homes to go find the newborn king. What was different about these magi? The difference was they had a vision. These magi were searching for something that was real--something that would transform their lives.

The season of Epiphany is a good time for us to look farther than we can see. The word "epiphany" means "manifestation" or "showing" and the gospel stories during this season describe various events that manifest the divinity of Jesus. This is a good time for us to look at Jesus with new eyes, to get reacquainted with him so that his divinity becomes more apparent to us and like the magi, we are transformed by the experience.

Peace, Thack

### **UTO - United Thank Offering**

St. Paul's will be giving out UTO Mite boxes and envelopes on Sunday, February 23rd before Ash Wednesday and Sunday February 29th after Ash Wednesday. This will be an opportunity for St. Paul's parishioners, all young at heart, to use Lent for a giving and sharing time. As a child, I remember putting coins in Mite boxes knowing I was helping others. It was a wonderful life-lesson in Charity. The UTO offering will be gathered in at all services on Palm Sunday and Easter in March.

Blessings, Megrez Rudolf

Dick Schmidt has written an account of the building of St. Paul's Church 25 years ago. This was at the request of Albert Kennington, historiographer of the Diocese, who wanted such an account for the diocesan archives. In researching this project, Dick drew upon his own recollections as rector of St. Paul's at the time, read through old vestry minutes and other documents from the 1990s, and interviewed a dozen leaders from that time who are still active at St. Paul's. The result is a 17,000-word history containing facts, anecdotes, reminiscences, and a few unvarnished opinions. Anyone wanting a copy of this history of the building of St. Paul's may email Dick at [rhsphs@gmail.com](mailto:rhsphs@gmail.com) and he will send it in a Word document.
