

To friends of Nonpartisan Redistricting or Fair Maps for Wisconsin,

This is so important and very easy. We are appealing to everyone concerned about fair maps/nonpartisan redistricting to contact their Brown County Supervisor regarding adding the proposed referendum for Fair Maps to the November ballot. Please ask your friends and neighbors to contact their supervisors as well. This matters to all of us and our futures!

You can click on the link below, find your supervisor, and enter your message. You can also call them. The second link below will bring you to your Supervisor's contact information page where you can find their phone number. Sending an e-mail may be the most effective method because there is a paper trail.

Before the [June 17](#) Brown County Board meeting, please send a message to the members of the Brown County Board of Supervisors to ask them to add the following question to the November ballot.

“SHOULD THE WISCONSIN LEGISLATURE CREATE A NONPARTISAN PROCEDURE FOR THE PREPARATION OF LEGISLATIVE AND CONGRESSIONAL DISTRICT PLANS AND MAPS? YES NO”

- Enter your message here: <https://www.browncountywi.gov/departments/county-board-office/general-information/email/>
- Calling [your Brown County supervisor](#) would be another way to support this effort!

### **Proposed message**

On [June 17](#), please **vote YES to let Brown County voices be heard in November!** I want the November ballot to include the question about nonpartisan redistricting so we can tell the state to take a more fair and cheaper approach to prepare legislative and congressional district plans.

Here are a few reasons to support such a referendum for Brown County voters:

- People in both parties (72% of all voters) favor finding a nonpartisan way to draw district lines (according to a 2019 Marquette University poll).
- Nonpartisan redistricting reduces costly lawsuits (\$ millions!) and encourages good candidates from all parties to run (since the outcome isn't "predetermined").
- Since 1980, Iowa has had nonpartisan staff draw the lines with a nonpartisan approach with no litigation/lawsuits!

- Similar referendums conducted in other counties across the state typically show bipartisan support of at least 70% of voters!\* This shows that a majority of Wisconsinites want to ban gerrymandering and bring nonpartisan redistricting to Wisconsin.

**Please vote in support of adding the question so Brown County constituents will also be allowed to tell our State leaders that we want nonpartisan redistricting in 2021!**

Thank you for your consideration,

**Your name**

**Town, WI**

I am not a Lobbyist Registered with the State of Wisconsin or any Municipality within Brown County

Constituent of Supervisor X (**Enter your Brown County supervisor's last name, if applicable**)

\* Counties (and municipalities) that have passed a Fair Maps Referendum

- Outagamie County: 72%
- Portage County: 74.9%
- Lincoln County: 65%
