Prayer Candle

Do you wonder how to stay connected with family that is not with you?

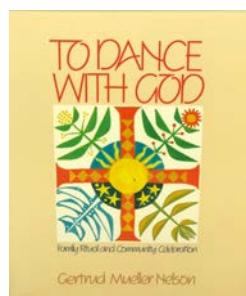

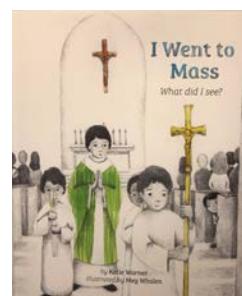

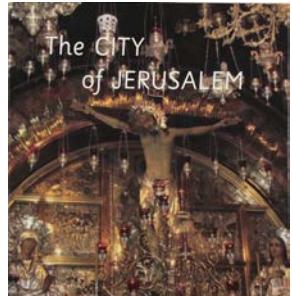

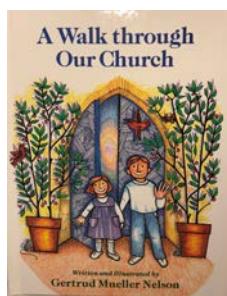

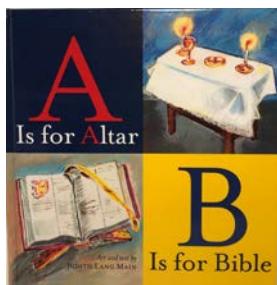

Do you have grandparents in nursing homes, children in college, a family member that lives in another city or state, or just a friend in need?

You can connect with them with this beautiful icon of Our Good Shepherd prayer candle. It is a LED candle that has a timer, so when you turn it on the first time it will automatically come on every day at that time. Just have one in your home and one with your love one and turn it on at the same time. Every day when your candle turns on you can know that your love one is praying with you.

You can also place it on your prayer table and switch it on and off as needed for a safe option to use with young children.
