

A MUSTARD SEED OF WISDOM

My time in the atrium was extremely instrumental in my early faith growth. It placed Jesus and his teachings in my daily life. Doing activities that were enjoyable for a kid my age helped me become comfortable with things that may have been foreign otherwise: the format of the mass, baptism, meditative prayer. These things are still a part of me. Some friendships I made in the atrium have lasted to this day, making a lasting impact on my adult life. I am grateful for my time in the atrium and I hope one day my children can also experience it.
