

AnyDesk Remote Access

DMS Management Solutions uses a tool called AnyDesk to connect to clients' computers remotely. AnyDesk ensures secure and reliable remote desktop connections. It is free and it works across all devices and operating systems.

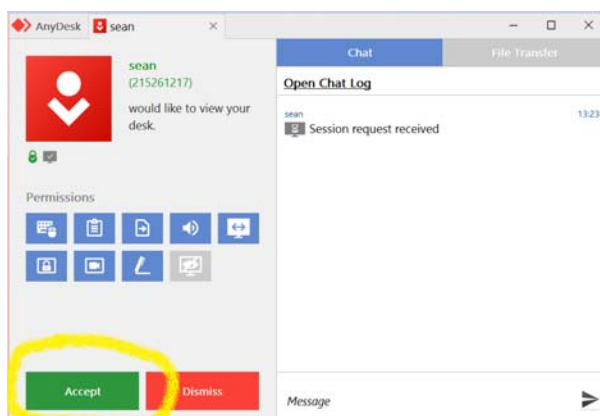

Your DMS representative will walk you through connecting via AnyDesk. The steps are simple and no installation of software is required.

Steps to connect:

- Go to anydesk.com
- Click on Free Download
- Click on Download Now
- Click on AnyDesk.exe in the bottom left corner
- Click on Run
- Your ID will appear under "This Desk" on the left
 - (Do not click the red "Install AnyDesk" box)
- Your DMS contact will ask you for your "This Desk" number so that they can connect to your machine remotely. "This Desk" number highlighted below.

- Accept the invitation to connect from your DMS contact as noted below

- Once you are connected, your DMS representative can work as if they are in your office.
- To end the connection, either click disconnect, close the tab, or close AnyDesk.
