

# DUBAISOLARSCHOOLS.ORG

**OUR SPECIAL INITIATIVE AIMING TO SUPPORT ALL THE DUBAI SCHOOLS TO BECOME “*SOLAR SCHOOLS*”**

We at **ARCHITALY GREEN ENERGY DMCC** deeply believe in a brighter and cleaner future, for the new generations. We launched **DUBAI SOLAR SCHOOLS** initiative, in order to achieve this vision, we all have to start our daily actions, focused to save natural resources and reduce our carbon footprint, going solar. The best action we can do is to teach the next generations the importance of sustainability. For this reason, we are particularly dedicated to support real actions in favor of the main Educational Institutions (Schools & Universities) in Dubai, fostering the local green and solar regulations.

The innovative **DUBAISOLARSCHOOLS.ORG** program aims to :

- *Reduce the Schools's energy bills, by installing rooftop solar energy plants upon a SOLAR LEASE FORMULA, with Zero capital to be invested from School's part.*
- *Support the School's EDUCATIONAL PROGRAMS, by using the solar energy plants in the additional role of study-subject and operative laboratories.*
- *Evaluate further potential energy savings which may be obtained through ENERGY EFFICIENCY programs, with Zero capital to be invested from School's part.*

## ***International Workshop on "Trends in Solar Power Generation and Energy Harvesting"***

27th – 29th March, 2017 Amity University Dubai Campus, DUBAI, UAE

### **PRESS RELEASE**

**DUBAI SOLAR SCHOOLS** is an innovative initiative created by **Architaly Green Energy DMCC**, a Dubai-based “green consulting company”, operative since 2013.

The aim of the *Initiative* is to **SUPPORT THE DUBAI PRIVATE EDUCATIONAL SECTOR** to start a **SOLAR ENERGY & ENERGY EFFICIENCY PROGRAM**, upon the current Dubai green and solar energy regulations, fostering the **DUBAI CLEAN ENERGY STRATEGY 2030 - 2050**.

Upon a “**zero-investment formula**”, Schools and Universities of Dubai can obtain an attractive «solar lease» and «100% financed energy efficiency program», coordinated by **Architaly Green Energy DMCC**, in partnership with top-tier local qualified Green Contractors and Financers, upon the local regulations.

The initiative aims to serve at least **100 Educational Organizations in Dubai**, by the year 2020, using the solar energy and energy efficiency implementations for the purpose to reduce School's Carbon Footprint and Energy Bills, becoming at the same time the best Educational campaign for the Schools to involve their students into real Green Study cases.

In this particular occasion, **Architaly Green Energy DMCC** is deeply proud to officially support this important «**International Workshop**» to be held in **AMITY UNIVERSITY DUBAI**, in our role of **MEDIA PARTNER, SPEAKER and SPONSOR** :

### ***International Workshop on "Trends in Solar Power Generation and Energy Harvesting"***

March 27-29, 2017 / AMITY UNIVERSITY DUBAI

The **Workshop** offers a wide overview of the state-of-the-art of the current Solar Energy industry and latest cutting-edge Solar Technologies, with an official presence of Speakers and Government Representatives from 30 emerging Countries, which are planning to massively «GO SOLAR» within the next decade.

**DUBAI SOLAR SCHOOLS** Initiative is officially supported by :
